ILA Strike Ends: Still No Contract

NEW YORK — Longshoremen belonging to the International Longshoremen's Association went back to work last week after the National Labor Relations Board, under pressure by the employers, ordered them to return to work. The employers threatened to call in the police if the longshoremen did not return to work. The ILA then gave in and agreed to break the strike.

The strike started March 5 and has been a hard one for the longshoremen. The employers have been trying to break the strike for months. The longshoremen have been without a contract for months and have been working without a contract for months.

The longshoremen have been working without a contract for months. The employers have been trying to break the strike for months. The longshoremen have been working without a contract for months.

America in Danger

The Loss of human life and the destruction that would be visited upon modern civilization and almost every country of the world by another world war cannot even be estimated by the leading scientists, generals and statesmen of the world.

Thus spoke the Tenth Biennial Convention of our union a year ago this month in its resolution called "World Peace—A Must." The judgment of the convention delegates, who represented all the locals of the union, has since been confirmed by history. The Vietnam war has been a disaster for the world.

And that the convention delegates and the membership of the ILWU which approved the resolution were properly concerned about the matter is borne out by what is happening in high level diplomacy today—

The Geneva conference will mark the first time that any representatives of the Chinese mainland government will sit down to discuss settlement of Southeast Asia matters with the Western powers.

The Dulles line up Britain and France in advance that no settlement of the Indo-China war shall be reached at Geneva, with the threat that American troops will take the war over, with nothing barred, including the ILA-A bombs.

There is real and horrible danger that the whole thing will explode into a third world war. The Dulles-Eisenhower posture is a declaration of war on Asia and a colonial revolution. They call it "the dirty war." Years ago the French could have given the Indo-Chinese a measure of independence than they are now willing to grant in order to end the conflict, and there would have been no war. Now, after so much bloodshed, the demands of the Indo-Chinese are logically enlarged to include full and complete independence.

In this the people of Indo-China are no different than ourselves as members of the union. In all our collective bargaining we have always been willing to accept less before than after a strike. For example, in 1948, without a strike, we were willing to settle on a longshore agreement far short of what we finally won after we hit the bricks. The shipowners in 1948 were even going so far as to assert ownership of Asia's wealth before the Governors' conference in Seattle.

The first (6 1/2 cent) hike was achieved by virtue of percentage increases that amounted to 373 per cent.

The formal signing of the new agreement took place on April 7. The agreement, which expires in December, 1955, makes the ILWU Local 6 the first to sign an agreement with the new national labor policy.

War is a grim business as this picture of the French getting their wounded away from the front in Indo-China attests. If the Dulles-Eisenhower program of imperialist intervention succeeds, a third world war is possible, even if the people of the United States break through the McCarthy-Brownell intimidation and speak out.

The French could have given the Indo-Chinese a measure of independence than they are now willing to grant in order to end the conflict, and there would have been no war. Now, after so much bloodshed, the demands of the Indo-Chinese are logically enlarged to include full and complete independence.

The French, the British, and the Americans are talking on behalf of and representing the biggest of big business in Wall street.

Dulles asserts ownership of Asia's wealth before the Governors' conference in Seattle. There is real and horrible danger that the whole thing will explode into a third world war. The Dulles-Eisenhower posture is a declaration of war on Asia and a colonial revolution.
America in Danger

From Page 1

United States will not allow the people of Southeast Asia to gain independence "by any means," including even a vote of the people. Gone is America's role as the champion of independence; forgotten is our revolutionary heritage. It is also in the inspiring Four Freedoms rallying cry of FDR during World War II.

We've moved a far way since 1940 when the draft law squeaked through by a narrow vote of one. The transformation has gone all the way now to open imperialist intervention in what is an admitted civil war. France, whose war it is, won't send one drafted soldier. Neither will Britain. A measure of the popularity of the war in France was the mobbing of the President and foreign minister of France by war veterans as they appeared to place a wreath in honor of soldiers in Indo-China. Imagine the state of things if such a thing happened in America.

Of course, such deplorable violence settles nothing, in France or here. What can settle the game in the hope that Republican intervention in Indo-China will wipe out memory of Democratic involvement in Korea? The Ben Gold verdict, if it stands, means the constitutional rights of every member of every bona fide union can be taken away at the whim of politicians in power. Words no longer have meaning. Psychopathic stooges take the witness stand of experts to claim that "no" means "yes," "stop" means "go" or vice-versa, according to what the prosecution is trying to prove, so that indeed nothing need be proved and the accusation is sufficient for conviction.

The jury lost sight of the lack of real evidence because it was build hysteria and inflame the jury against the victim. The jury that had five government employes on the jury. They would be strange citizens, the agents undertook to question the jurors. In addition to the prosecution's logic about "mental" membership in the Communist party before he signed the oath. He was also a member of the Communist party and this fact was known to the membership of his union, which nevertheless elected him and re-elected him time and again.

When it became necessary for his union to protect itself from Taft-Hartley union busting, Gold resigned from the Communist party and signed the required Taft-Hartley non-communist oath. He was also a member of the Communist party and this fact was known to the membership of his union, which nevertheless elected him and re-elected him time and again.

Local 6 In Notice to Employer

SAN FRANCISCO — ILWU Local 6 on April 20 notified the Distributors Association of Northern California and all independent firms with which it holds contracts, of the demand set forth for 1954 by the big warehouse local's recently-held convention.

The union will ask a 10 cent per hour raise for men, a 15 cent raise for women. It will also ask shift differences of 10 cents for swing and 15 cents for graveyard; 2 weeks vacation for 5 years, 4 weeks after 20 years and pro-rated vacations for casual workers; and a reduction of qualifying hours to 150.

COUNTERPROPOSALS

Union officials have 10 days (from March 28) to submit counter-proposals or stand on the present contract. The first meeting between negotiators for Local 6 and the employers will take place immediately after April 19.

All divisions of the warehouse local have been elected members to a 28-man negotiating committee, and the membership has voted acceptance of the contract demands put forth first at the annual contract and constitutional convention of the warehouse union on March 6.

NEGOTIATORS NAMED

San Francisco division of the local elected its negotiators last month. Oakland division voted last week elected Caleb Thayer (McKenzie), Marie Ridgway (Gibbs), Roseo Proctor (hiring hall), Donald L. Racine (American Oil) and Louis Gienick (both Pabco), John Mack (McKesson), Joe Zuber (McKesson), Daniel Ruh (Allison) and Durnine Ellis (Allers).

Stockton chose Harry Enos (Port of Stockton) and Melvin Kesson (both Pabco), Marie Ridgway (Ozalid), Louis Goniek (both Pabco), John Morgan, Joe Zuber (McKesson) at California Hall (Polk & Turk Streets).

Local 6 will deal with several anti-labor bills now before Congress and, if need be, place the Butler Bill, the proposed "trespass" amendment before the states to prevent native-born citizens of their "wrong" ideas.

Seems That People Can't Pay Their Bills Now

WASHINGTON, D. C. — The Bureau of Labor Statistics reported April 16 that the nation's workers are free to find all sorts of reasons to miss-pay their bills.

In mid-1953, the Bureau of Labor Employment Drops 300,000 in a Month!

WASHINGTON—Nonfarm employment dropped another 300,000 between January and February, continuing the downturn started in mid-1953, the Bureau of Labor Statistics reported March 18.

Total nonfarm employment in mid-February was 47,716,000, compared with the mid-January figure of 47,779,000. Manufacturing employment in February was 16,027,000.

Three Workers Reinstated at Colgate After Arbitration

Two shots taken at the C & H Sugar Refinery in Crockett, April 1, when ILWU Local 6 signed a 2-year agreement that averted a scheduled strike at the last possible moment.

The new agreement gave what amounted to 6/10 cents a cross-the-board to 500 ILWU members, retroactive to September 1, 1953. Another 6 cents is due this September 1. (See front page story.) In upper photo, negotiations for Local 6 and the company are shown just before signing the agreement. In lower photo the union committee is shown relaxed while management caucused; sitting, Kurt Page and Leo Ghilarducci (negotiating committee members — Ghilarducci is also a steward); August Hamanes (business agent) and Local 6 president Charles (Chili) Duarte, standing, Dick Donahue (Crockett dispatcher), and "Red" Cole and Bruno Duka of the negotiating committee. This was ILWU's second sugar victory in a month.

world armaments reduction.

(5) Outlaw, through United Nations ac- tion, the use by any nation of the atom bomb, the H-bomb and germ warfare.

(6) Reverse the vote cast by the U. S. in the U. N. Assembly against independence for colonies to own and exploit their own natural resources.

(7) End the economic blockades and estab- lish free trade throughout the world.

(8) Promoting free exchange of informa- tion and delegations between all countries of the world.

(9) We urge our country to abandon the restrictions and prohibitions against travel and entry into the communist countries, and likewise insist that similar restrictions by all other countries be dropped.

(10) Give labor and the common soldier a seat at the international negotiating table.
Mine-Mill Sues to Stop NLRB Order

DENVER — The US District Court in Washington, D.C., has before it a suit filed by the International Union of Mine, Mill, and Smelter Workers, aimed at halting an action ordered by the NLRB.

The suit, filed by the union's general counsel, Nathan Witt, asks that the National Labor Relations Board rescind its order to call off its "administrative investigation and hearing" concerning the non-communist affidavit of Mine-Mill Secretary-Treasurer M. F. Travis.

In announcing the legal action, the International office said: "At stake here is nothing less than our union's right to due process in determining our membership rights. The NLRB, in its proceeding to unseat the Mine-Mill, is trying to usurp the authority of the federal courts. It is seeking power to destroy our entire union's bargaining status on the basis of what is clearly a McCarthy-type "investigation" which relies on nothing more than guilt by accusation."

"The present board contains a 4 to 1 majority of Eisenhower-appointed members, with a 4 to 1 holding outlook on labor relations. NLRB regulations now provide for the expiration of all union organizing provisions of the Taft-Hartley Act, a law which is currently being tried to rewrite Taft-Hartley by the Congress." 

Money income of white males in 1952 was about twice that of nonwhites, according to the US Census Bureau. "The median income of white males was $3,300 and for nonwhites was $1,300, it reported. "The median income of white females was $1,300 as compared with $500 for nonwhites."
Local 3 Hits Trawler Co. & SIU Scabs

SEATTLE — The virtual trial of Deep Sea sailed on March 18 from behind an ILWU Local 3 picket line, where in what was obviously a vain last-ditching by the company that owned the ship, Deep Sea Trawlers Inc., together with the United Fishing Wives of America (SIU Scabs).

Local 3 had a contract with the company which ran the ship. When the company formed, in January, it tried to put over a 25 cent wage cut, which the local turned down. The company tried a lie out, but Local 3 struck and won. The company then sent out under the existing contract, with no cuts. The Deep Sea was not seaworthy at the time. Negotiations continued and agreement was reached to cover all 3 boats with the existing contract for 6 months.

On March 11 the company received a request from the United Fishing Wives of America (SIU Scabs) for an agreement and a signed back outfit willing to work for less money and under worse conditions. The company responded by saying it would try to give a $30,960 in one year under its agreement.

The membership voted on a resolution that the company would not be given a contract and that an agreement should be signed by the president of the United Fishing Wives of America (SIU Scabs). The resolution was made by the president of the United Fishing Wives of America (SIU Scabs).

Local 26 in LA

Asphalt Talks

IHWWU Local 26 negotiators at Henry Asphalt are holding firm on demands for a wage increase and improved working conditions, although management has agreed to most of the union demands.

So far in negotiations are increased contributions to the Waddle, a holding fund on demand for a wage increase and improved working conditions, although management has agreed to most of the union demands.

The Local 26 said that so far in negotiations are increased contributions to the Waddle fund, triple time for holiday work, and a lot of guys on the swing shift.

The Local 26 said that so far in negotiations are increased contributions to the Waddle fund, triple time for holiday work, and a lot of guys on the swing shift.

Local 6 Organizing a Basketball League

SAN FRANCISCO — Local 6 is organizing a basketball league. The Local 6 has sent a letter to all warehouses to set up a league. The Local 6 is also planning to enter a team in the league, which should enter next season, by local 6 warehouse basketball, team before 6 p.m. at DO 535.

The team managed by San is challenging all Local 6 divisions for home or away games and has accepted a challenge in the Class C Industrial League with 4 wins and 1 loss.

SAN FRANCISCO—Continued protests by ILWU locals against the projected Butler Bill, now in Congress, are mounting every week.

The Local Butler Bill, which would make all unions subject to the supervision of the so-called Subversive Activities Control Board, was introduced by Senator John M. Butler (R., Mich.), a protege of Senator Joseph McCarthy and a anti-communist crusader.

WHY SO?

"We also urge you to drop your new law which would make it possible for any union to lose its contracts upon the mere accusation (by anybody) that it is "subversive" or "dominated" by individuals who are or have ever been labelled "subversive." The contracts should be revoked only by the union "proved" to your satisfaction that it is involved in such activities.

Newman, secretary-treasurer of ILWU Local 105 (Hawaii) informed The Dispatch last week that the Hawaiian local had sent 24 telegrams on April 1 to the Senate Judiciary Committee, condemning the Butler Bill and calling for its defeat. The workers were sent by various units of the big Territorial local.

ILWU Local 26, with 162 members, has also sent a telegram on April 1 to Senator Butler himself, which reads: "Enactment of Butler Bill would be a serious threat to all organized labor.

Therefore, we do not regard such legislation as favorable. We urge you to stop this death blow at free unions."

Similar action was taken by ILWU Local 51 (Fort Gamble, Wash.), in letters sent out April 2 to Washington Senators Magnuson and Jackson and Representatives Pelly, Tulett and Magnuson.

-Estimated steel production for the week beginning January 15 was 74.3 per cent of capacity, the most it has been since 1947, when the company was formed. In January, 1947, the company received a contract with the existing contract for 6 months.

On March 11 the company received a request from the United Fishing Wives of America (SIU Scabs) for an agreement and a signed back outfit willing to work for less money and under worse conditions. The company responded by saying it would try to give a $30,960 in one year under its agreement.

The membership voted on a resolution that the company would not be given a contract and that an agreement should be signed by the president of the United Fishing Wives of America (SIU Scabs). The resolution was made by the president of the United Fishing Wives of America (SIU Scabs).

IlwulOCals Are Protesting Senator Butler's Anti-Labor Bill

The Local 51 letters were signed by the local business representa-

ive secretary, and reflected action taken by the local union at its March meeting.

They said "The members of our local union, who have been members of the ILWU for many years, protest this legislation already designed to throttle and stifle the unions of our country. We are making an appeal requesting that you cast a vote on this important measu-"
New Drugs and Their Effect on Patients

Many new drugs are on the market today, some sold only on prescription, some of them prescribed for health reasons to know something about these drugs and their effects.

Penicillin, streptomycin, aureomycin and terramycin. Their values are incomparable in fighting serious infection or diarrhoea, and they often bring spectacular results.

Contrary to the organisms that cause one type of pneumonia, for instance. It is prescribed for the antibiotic, the "wonder drugs" like streptomycin, aureomycin and terramycin. Their value is incomparable in fighting serious infections and they often bring spectacular results.

One type of pneumonia, Penicillin is effective against the organisms that cause one type of pneumonia, for instance. It is prescribed for the antibiotic and they often bring spectacular results.

Possibility of Allergy

Another side of the story, however, is the fact that about 10 per cent of the population can become allergic to penicillin. There is no way of telling beforehand which of these people may become allergic. There is no allergy reaction to the first dose, but a second dose can cause a bad case of hives or other conditions that may last for weeks.

Coughs Following Colds

Coughs following colds can be expensive, about $8 per treatment, and can cause intestinal trouble. The risk of stomach cramps and diarrhea should be kept in mind if you are prescribed for the antibiotic and they often bring spectacular results.

 among the many doctors, cause anxiety about giving penicillin for mild infections, like the annoying nose and throat inflammation common in winter and early spring. Another reason is that bacteria build up resistance to penicillin and if it's used to fight a minor cold it may not be effective against a more serious infection.

This winter there has been an epidemic in the San Francisco area of secondary bacterial infections with high fever, coughs and chills that go on for weeks.

GRACE LINE, INC.
Longshoremen's Injuries at All-Time Low

SAN FRANCISCO — In 1953, injuries in the longshore industry on the Pacific Coast were at their lowest rate in 27 years. It was announced April 9 by the Northern California Area Accident Prevention Committee of the Pacific Maritime Association.

The facts about 1953 injuries were presented at a dinner held here April 8, at which representatives of PMA, the California Division of Industrial Safety, the US Labor Department and ILWU Local 6, were present.

Credit was given to the cooperation of longshoremen, walking bosses and stevedoring companies in reducing the injury frequency rate, the best the industry has ever achieved.

Majority in ILWU, it was announced, followed in the "hand handling" accident category, with mishaps (tripping, slipping and falling) running a close second.

ILWU was represented by Local 6 President Martin Callaghan, Local 6 Secretary Ralph Molin, and Bob Back (VP), Rea Erkilla (secretary) and Charles Hoffman and William Bronson, business agents, all of Local 6.

Fish Heads ILWU

SEATTLE — Joe Jurich has been elected president of ILWU Local 6 at the Conclave last week, following 10 years as the area's labor relations agent.

Other 1953 officers elected included: Joe Sliewitz (vice president); Anthony Robid (treasurer); Reino Erkkila (VP); Francis Dwyer (secretary) and Charles Hoffman and William Bronson, business agents for Local 6.

Stumpt Named SC Welfare Head

Mr. Stumpp will administer the ILWU-PMA Welfare Plan in that district in order to get better service for the members.

Previously appointed and announced earlier were Area Welfare Director for the Southern California area, effective April 1, 1954.

Stumpp was named to administer the ILWU-PMA Welfare Plan in that district in order to get better service for the members.

ILWU Local 6 Calls for Support for Hugh Bryson, Facing T-H Trial

SAN FRANCISCO — ILWU Local 6, which has gone on record to support Daily Worker, President of the National Union of Marine Cooks & Stewards in his fight against unfair labor charges, sent out a bulletin to all shop stewards on April 7, giving details on the Bryson case and listing ways in which it could be supported.

Bryson faces trial for allegedly falsifying his Taft-Hartley "non-communist affidavit," a gimmick that has already been used to convict Ben Gold, president of the International Fur & Leather Workers Union and Clint Jenkins, official of the International Union of Mine, Mill & Smelter Workers.

A reading of the facts may well support the discretionary power of the Illinois Labor Board to remove from the public service officers guilty of either gross or obvious misconduct, when the facts are not of a nature to render punishment a sufficient penalty.

SITDOWN STRIKE

Over 5,000 shipyard workers sat down April 6 at the NY Shipbuilding Corporation's plant in Camden, N.J., in protest over the suspension of 100 union officials by the company. Here a package of food brought by a striker is hefted over the wall.

The workers had struck and the company said it was a "wildcat" strike, disciplined the union leaders. —Wide World Photo.

STUMP COON TAKEN OFF

The Free State Mariner

OAKLAND — The Free State Mariner beef was settled this week with the following developments:

1. Nathan Edwards, ILWU chief steward on the ship, who was beaten up by 8 SUP goons on March 28, is on the beach full pay from the company.

2. Arnold Hudgins, SUP bo'sn who assaulted Edwards has been transferred by Lundeberg (in violation of his own shipping rules) to another ship.

3. The chief steward's job on the Mariner went to another ILWU man.

4. The SUP chief cook was pressed off by the MFOW and replaced by another ILWU man.

The chief steward's job on the Mariner went to another ILWU man.

The company later negotiated shipping Edwards aboard another FFE vessel and replacing Hudgins with another SUP bo'sn. ILWU, through Coast Committee member L. B. Thomas, refused to go for this deal and the dispute came up April 12 before the referee appointed under the consent decree which establishes current shipping practices for stewards' department personnel.

The referee ruled that the proposed switch would be in violation of the consent decree, but that while the company had a right to remove Nathan Edwards from the ship, it would have to keep him on full pay till he found another berth.

ON THE MARCH?

What is the ILWU? What is the heart of this hard hitting organization?

Our union belongs to no one individual and no one individual can be credited with its progress and its strength.

Our union belongs to no one individual and no one individual can be credited with its progress and its strength.

The job is the union function and the job is where the union members, who are all union officers and who are the union, become the strongest and most influential group of people in the world.

But the real strength of our union lies in day to day activities of the ILWU in maintaining union conditions with the assistance of the whole membership.

Every member of the ILWU, wherever he is, is part of the struggle against the company and those who work for the company.

Who does the ILWU mean to you? Are you a member of this great organization?

A union is a group of people who have come together to negotiate their solutions through union machinery.

THE JOB STEWARD is the most vital link among union members on the job. His is the greatest responsibility in maintaining union conditions with the assistance of the whole membership on the job where a problem may exist.

The union is a group of people who have come together to negotiate their solutions through union machinery.

The ILWU is the union of the working poor, the union of the working poor, the union of the working poor.

Our union is not at 150 Golden Gate Avenue in San Francisco, our union is not at 150 Golden Gate Avenue in San Francisco, our union is not at 150 Golden Gate Avenue in San Francisco.

The ILWU is the union of the working poor, the union of the working poor, the union of the working poor.
