Behind Our Backs

The Methods of the Red Bailer

By C. Cates

A lot of racket is being made by the so-called 'Reds' about certain corners of the country, and they have been busy trying to send out emissaries to stir up trouble over here. They have failed. They are finding out that they have no friends here. This is due in large part to the fact that the workers in the Northwest have been organization for some time now and are well informed in regard to what is happening all over the country. They are not going to be hoodwinked by these so-called 'Reds' who are trying to sow discord among the workers.

There are no red sympathizers on this side. We stand for the union and the men who work in it. We are not going to let anyone try to divide us.

Women of The I. L. A.

By Julia Porter, I. L. A. Women's Organization, Seattle Local No. 3019

Some of the calls that have been made at the door of the house of the wife of a worker have been made by so-called 'Reds'. They have tried to talk to her about her husband's politics, but she has shown them that she is not interested in such matters. She is interested in the welfare of her family and the success of the union. She is not going to let anyone try to divide her or her husband.

The Stevedore

By E. S. Nelson, President, American Federation of Labor, Seattle Local No. 305

The stevedores have been working hard to try to improve their wages and working conditions. They have been organizing and fighting for their rights. They have been successful in getting some of their demands met. They are not going to let anyone try to stop them.
