I. S. U. MUST SOLIDIFY INTERNALY

By Jim Engstrom

As a result of a recent interview with El H. M. Johnson, Seattle A. F. U. District Director, it would appear that the District Office is to be moved to the New Building on the West Coast, shipper the A. F. U. District office is now located at 3005 4th Ave. S. W., Seattle. The new office is to be moved during the week of July 15th. The interview took place in the new building on the West Coast, where the District Director is currently located.

The District Director mentioned that the new office will be more convenient for the members of the District, and will provide better facilities for the office staff. He also stated that the new office will be more accessible to the public, and will allow for easier communication between the District and the membership.

The District Director also mentioned that the new office will be more conducive to increased productivity, and will allow for better organization and management of the District's affairs. He stated that the new office will be a significant improvement over the current office, and that it will provide for more efficient and effective operation of the District.

French Longshoremen Strike Against Wage Cut

Shipowners have paced a new wage-cut in the French ports in order to evade the reparations. The information of the new reduction was given out in the Journal Maritime of the last week. The wage-cut is set to take effect on the 15th instant.

The strike among the French longshoremen is expected to spread, with the result of cutting wages of the French trade by 20%.

SHIPOWERS OF FRANCE FACE GRAVE CRISIS; STRIKE SPREADING

Using the situation created in the French ports by the wage-cut, and the situation in the coal fields, and the situation among the French coal miners, the French workers are trying to secure on the same lines that were secured in England, and the unions of both France and England are supporting the strike.

The French workers are not satisfied with the new wage-cut, and they are determined to fight for their rights. The strike is expected to spread to other districts in order to secure better conditions for the French workers.

NO U.S. ACTION

The U.S. government has taken no action on the situation in France, and has not given any support to the French workers. The U.S. government is seeking to avoid any intervention in the dispute.

The strike among the French workers is expected to continue, and the French workers are determined to fight for their rights. The situation in France is expected to lead to further disturbances in the French ports.

Up and Down the Embardero  
With Charlie Cates

The news woman on the evening radio was talking about the strike. She said it was a big one that had involved several thousand workers. As she spoke, a small crowd gathered on the sidewalk outside the office I occupy. It was the first time I heard of the strike. I asked the woman what it was about. She said it was a strike of the seamen for better wages and working conditions. She said the seamen had been working very hard and had not received a raise in years. She added that the shipowners had refused to budge an inch on the issue.

The larger newspapers have been reporting the strike in a very poor light. They have been saying that the seamen were being stubborn and that they were only after a handout. I don't think this is true. I believe that the seamen are just trying to get a fair and just wage for their work. I think it's about time that the shipowners started to take this matter seriously.

I have always been a great believer in the right to strike. I think it is a necessary tool for workers to protect their rights and to make their voices heard. I think the shipowners should be willing to listen to the seamen and to negotiate with them in good faith.

The strike has been going on for several days now. The seamen have been picketing outside the shipyards and have been causing a lot of disruption. I hope that the strike will be settled soon so that the seamen can get back to work and the shipyards can get back to business as usual.

I believe that the shipowners should be willing to坐 down and talk to the seamen. They should be willing to make concessions and to find a solution that works for both sides. I think that the strike is a very serious matter and that the shipowners should take it seriously.

By Publicity Committee

Local Leaders have just passed over one of the best chances of the year. It is absolutely necessary for the I. L. A. to be in the forefront of this movement. Work will be patiently, quietly, and in the proper spirit of the times.

The purpose of the Union is to bring about a real revolution. The I. L. A. has been working for years on this question. We have been striving to bring about a change in this country. We want to see a society in which everyone is free to work and to live as they please.

The I. L. A. is not afraid to stand up for its rights. It will not be afraid to fight for democracy.

BRITISH COLUMBIA NEWS

COOL COSTS AND STRIKE ACCIDENTS

An advertisement carried by one of the editors of the British Columbia Times reads: "We want to know what is going to happen to the workers of the world."

LINDSAY: That's the kind of thing that's happening in the world today. We are going to stand up for our rights.

HONOLULU NOTES

SKY PILOT SENTENCED TO FEDERAL PRISON

As a member of the Lindsay family, the sentence of the Federal Court on a former worker was read by the Judge. A resolution was adopted by the Judge, expressing his sentiments on the case.

The Judge was himself a former worker, and he knew what it was to be beaten up. He had his share, and he didn't like it. He didn't like it at all. He just wanted to bring some order into the world. He didn't like the order that was there.

The Judge said that he was going to try to make the world a better place. He said that he was going to try to bring some order into the world. He had the same sentiment as the Judge.

**EDITORIAL**

STEAM SCALERS

The year nineteen hundred and thirty-five, has faded into oblivion; but our troubles and trials have not.

During the lumber strike in the Northwest last year our troubles were precipitated by the refusal of the railways to handle any material destined for the West Coast.

In the B. C. strike and also in the California or the West Coast members of the Federation showed a united front and still refused to handle or transport anything touched by the strike.

Under the different Arbitration laws the maritime workers are to be found great inequalities in rates of pay for different groups performance the same work.

In the most important of all, the men contributing to our costs have not been able to do so.

In other words, their wages have not been able to do so.

Perhaps before the year 1936 becomes very old a reasonable solution will be arrived at. We earnestly hope.

**PUT THEM ON THE STREETS**

Two very definite victories for Labor have been realized during the year 1935.
