The third section of the act, which makes the discharge uncleavable, will come into effect 60 days from the date of its publication.

**Rather Than Split May Decide To Compromise**

A.F.L. officials, in an interview with the National Labor News today, stated that there is a real danger of the Council going into a secret session with a view to avoiding splitting the rank and file at the present time. Steel Owners Begin Violent Counter Attack as Organizers Start to Work in Huge Field, Radio, Mass Meetings, Circulators Utilized

Steel owners began violent counter attack as organizers start to work in huge field, radio, mass meetings, circulators utilized.

While thousands of workers are striking, thousands are marching through the streets of Chicago, Milwaukee, Detroit, Cleveland, and Buffalo. The strike is still pending in several cities.

Steel owners are violating the law by refusing to recognize the union and by refusing to meet with it. They are also violating the law by interfering with the work of the organizers.

The strike is a protest against the steel companies' refusal to recognize the union and to meet with it. The unions are fighting for a shorter workday, a better wage, and better working conditions for the workers.

On July 14, the strike ended with the companies agreeing to meet with the unions and to negotiate.

Labor Takes Up The Challenge

For years the lords and masters of steel, rubber, auto, textile, food, tobacco and all the other great producing trusts have ruled arrogantly over their employees.

A new and better kind of right to organize freedom and engage in real collective bargaining. They have done it by violent strike, by beating up in their plants, by disbanding the unions, and by using the police to do it.

This is the kind of right to organize that wouldn't be acceptable to the American workers. They have fought without weapons. They have fought with the utmost determination, blue steel helmets, and secretly drilled, while fiery crosses ready to launch a mass campaign.

A big steel strike has started. Union organization has started, and it is now growing, with a new vigor and with a new determination. The American capitalist's main object is to keep the American workers from organizing.

The movement that is now beginning to sweep the country, that is now sweeping the world, is the movement of all the American workers to have the right to organize in unions.

Mourn Not the Dead

An article in the Sunday edition of a local paper commented on July 11, written down by history as a bloody day.

Leningrad, the city with the inland port, was the scene of one of the most notorious killings which have occurred in the month of July. The bodies of prominent labor leaders and the heads of the workers in the last days of the Czarist regime, were shot down.

Searching the annals of mortuary lists, the inquiring reporter of the local paper, in his search for the truth of the matter, was told by the overseers of San Francisco, the Leop and Leopold mutilated of Little Bobby Frank, the chopping down of the no-license crew, the murder of an approved writer, the endless recording of less known but equally sensational events.

The 1934 strike that the cook and longshoreman were involved in, the bombing in San Francisco, the Loeb and Leopold mutilated of Little Bobby Frank, the chopping down of the no-license crew, the murder of an approved writer, the endless recording of less known but equally sensational events.
