I.L.A. Maintains Solidarity Despite Shipowner Wiles

The Labor Act, if passed, would provide a mechanism for resolving disputes between employees and employers, ensuring that workers receive fair wages and safe working conditions.

SHIPOWNERS SPIT IN THE WIND

When a majority of the leaders of the different unions of the Federation are granted, before any single agreement is reached, an attempt is made to break the unity of the employees, to be able to insist on their demands being accepted without delay.

The many times repeated truth that the test of a man's character is to be found in his conduct when no one is looking, is also a truth which the leaders of the Maritime Federation have always emphasized.

The need for solidarity among all the workers on the Pacific Coast is facing a third zero hour. After the first truce was broken, the workers had only one recourse—Job and other industries are indi-

The American Federation of Labor Co-operative Committee of the Pacific has called a meeting for the morning of the 10th October for the discussion of the following issues, as an item of immediate and pressing need for action by the membership of the Pacific and the Maritime Federation.

Subject of discussion:
1. The immediate action necessary to prevent the spread of the strike to the entire membership of maritime workers.
2. The need for a coordinated approach to the strike, taking into account the interests of all the workers involved.
3. The importance of maintaining communication and solidarity among the different union groups involved.

The meeting will be held at the headquarters of the American Federation of Labor, located at 1111 Nuuana Street, Honolulu. All members are encouraged to attend. This is an urgent call for action.
A. M. Murphy Unanimously Thrown Out By M. F. O. W.

The membership is about 11 percent strike in what is taking place, and this percentage is increasing. The strike has been going on for several weeks, and many of the workers are now participating. The strike is caused by the lack of cooperation between the management and the workers.

A much better position to know the facts. The U.S. Department of Labor has been forced to go along for a strike vote because at the request of the Maritime Federation. As it has the power to take a strike vote to show that they meant business.
