As the West Coast Maritime Unions solidly marched on strike to demand a wage increase of 75 cents a week and file support swept against practically every coast from Massachusetts to Texas in the Gulf, more than 12,000 seamen and longshoremen have rallied magnificently behind, the Pacific Coast maritime workers. More than 100 ships are tied up at the docks. Meetings to discuss strike strategy are being held every night. The ships, scattered all along the coast, are being blocked at every opportunity. The unions are making every effort to stop action in the ports.

Most significant in this great wave of sympathy is the spontaneous action of the rank and file of the workers. From New York and Philadelphia to San Francisco and Los Angeles, the workers are showing their solidarity. The workers are responding to the call for action from their comrades in the Gulf.

San Francisco, California, Thursday, November 5, 1936

San Francisco, Calif.--In putting away our savings, Maritime Commissions across the country have always played a key role in the struggle for workers’ rights. Today, we are seeing the same determination in the West Coast as in the Gulf.

I have been out here for a month now and while the country is working well, there is still a lot of work to be done. I think that we need to remember the boys in service.

I am the ex-delegate of the S.S. Sailor's Union. I am here to help with the work at hand.

I have been getting information from Brother Frey, believed to be an organizer of the Federation. He has told me about the conditions in the harbor.

He has been in no condition to work, but he was able to work for a few months up until now. He still belongs to the Federation, but I believe he is a union man who has been kept away from work.

I met with Brother Frey, and he told me about the conditions in the harbor.

He spoke of the difficulties faced by the members of the Federation. He mentioned that the rates may be reduced, but he said that the work must be done.

I would appreciate any information you can provide.

The Strike Is On!

The Seattle Longshoremen's Association was determined to force the owners to settle their demands. They had been on strike for three weeks in Seattle, nine days in Portland, and had not agreed to settle. The strike is building and is spreading to other areas. Local 38-124 in Portland has been on strike for two weeks, and Local 38-112 in San Francisco has also struck. More than 20,000 longshoremen are on strike in the West Coast ports. The strikers have been very militant and have been marching and picketing for several days. The owners have been very stubborn and have refused to meet the demands of the strikers. The strike is expected to continue for some time.

To Act For Miscellaneous

The certification of Local 38-124 in Portland was given to act for miscellaneous trades. This will give the longshoremen the power to act for any other groups in the maritime industry. The certification is a victory for the longshoremen and a defeat for the owners. The owners have been trying to prevent the longshoremen from acting for other groups, but the certification gives them the power to do so.
