of Angelo Herndon, young Negro unemployed organizer, to the S. Supreme Court, will not be heard until February, according to information received. He was convicted under an ancient law criminalizing "agitation of the state by force" and sentenced to 20 years in jail. Herndon was a member of the Industrial Workers of the World when he was arrested in California in 1931. The case is of significant interest to labor leaders because it involves the right of workers to organize and the limits on that right.

To Beware Bad Publicity

In a fitful effort to organize a publicity action intended to act as a precedent in the West Coast labor dispute, Leo Holman gives the keys to a not-happenstance through a magazine.

Committees Ask Strikers To Beware Bad Publicity

By John Schanker

Passed by I.L.A. Strike Committee; Concurred In by Joint Maritime Strike Committee.

(Official Release by I.L.A. Publicity Committee.

To Warn of the Need to Offset the Danger of Publicity by the Shipowners, the I.L.A. Strike Committee, under an agreement with the Joint Maritime Strike Committee, has established a fund for the purpose of defraying the expense of advertising the strike in the favor of the unions.

The fund has been accepted by the shipowners, and a statement to that effect has been appended to the Fund.

In a statement of the Fund, the shipowners agreed to a fund of $50,000, to be placed in the hands of the I.L.A. Strike Committee, to be used for the purpose of advertising the strike in the favor of the unions.

The three committees have agreed to the following conditions:

The Fund shall be used solely for the purpose of advertising the strike in the favor of the unions.

The Fund shall be used for the purpose of advertising the strike in the favor of the unions.

The Fund shall be used for the purpose of advertising the strike in the favor of the unions.

KANE DIES A MARTYR TO THE RANK AND FILE STRUGGLE

Houston—Last week death brought an end to Johnny Kane's heroic struggle for life after having been downed byるattle of a year.

Kane, a 20-year-old seaman, was one of several hundred automobiles which were drawn to the intersection of Main and Market streets.

The car in which he was riding was a 1930 Model T Ford, owned by a friend.

When the car was stopped, Kane attempted to escape, but was captured by the police.

He was taken to the police station, where he was questioned and released.

Kane was a member of the I.W.W. and had been active in the labor movement.

Elsewhere in this issue of the "Vigor" will appear various and sundry charges, hints, and innuendoes relative to the agreement now under submission to the membership of the Sailors' Union of the Pacific and its method of negotiation, which certain disgruntled fanatics would like to put upon it.

In so far as we do the fact, that in the midst of a major strike struggle, this faction has seen fit to launch a public campaign of vilification against the Sailors' Union of the Pacific and its method of negotiation, it is absolutely necessary to answer it— and in no uncertain terms.

FIRST: They charge "secret negotiations." This is a lie. The S.U.P. Negotiating Committee and the membership were aware at all times that Brother Lundeberg, in response to a request from the Department of Labor, was attempting to arrive at an agreement with the shipowners. SHIPPERS USE ALL METHODS TO AVOID PAYING COMPENSATION

By JERRY DAVIS

Sheepish stevedores do not hesitate to be seen in public with their hands in their pockets. This is the attitude that brokers of the International Longshoremen's Association have taken in recent days, in the face of a new public attitude toward such practices.

The brokers are trying to conceal their activities behind a veil of secrecy and are refusing to answer questions from the press about their dealings with the union.

Blacklists are being used to prevent the recruitment of new members, and the activities of the brokers are being investigated by the United States government.

The brokers have been under fire for months, with the union demanding that they be held accountable for their actions.

The brokers, however, are not backing down, and they continue to refuse to answer questions about their activities.

The brokers are under pressure to change their ways, but they are refusing to do so, and the situation continues to be tense.

TEXTILE PLANTS LOWER WAGES

Washington, D. C.—Workers who have been involved in wage increases for women employed in women's workplaces since the beginning of the war are those women who are only paid according to their work. In this way, they are able to earn more than the minimum wage and keep their families alive day in and day out.

The Industrial Association of San Francisco, which represents some of the largest employers in the city, is making a study of the labor movement, and is more militantly reviewing its role as one of the greatest enemies of organized labor, and the weakening of the movement. Its action is in accordance with the plan of the organization of the working class in Texas, where the workers, having taken control of the government, have seen the importance of maintaining the labor movement, and are opposing the efforts of the Communist Party to destroy it.

C.L.O. Plans

The campaign against the Communist Party in the Maritime Federation of the A. F. of L. is going on in full swing, and the Communist leaders are no longer able to prevent the formation of a new union, the American Maritime Workers' Federation. The campaign against the Communist Party is not only an attempt to destroy the labor movement, but is also an effort to prevent the formation of a new union, which is in the interest of the working class.

Non-Union Job

The question of the future of the labor movement is a very serious one, and it is not surprising that what is shocking to read in the reports stating that William Green, president of the American Federation of Labor, has written to the Porte du Havre, France, is that the labor movement is in a desperate state.

Defend the Striker

The demand for a decent wage for women workers is a fundamental demand of the labor movement, and it is in the interest of the working class to see that it is achieved. The struggle for a decent wage for women workers is not only a struggle for the welfare of the working class, but is also a struggle for the future of the labor movement.

C.L.O. Plans

The campaign against the Communist Party in the Maritime Federation of the A. F. of L. is going on in full swing, and the Communist leaders are no longer able to prevent the formation of a new union, the American Maritime Workers' Federation. The campaign against the Communist Party is not only an attempt to destroy the labor movement, but is also an effort to prevent the formation of a new union, which is in the interest of the working class.

A LIBERAL SPEAKS

Port of Whittier, December 17, 1936.

I am by temperament and "in the saddle" a Liberal, but in this case I wish to arrive at certain conclusions which, though not suitable to the Liberal tenets, I believe are based upon the facts before me. It is for this reason that I wish to make known to all the members of the press and people who have asked me to explain, why I came to Whittier.

We the members of the Pacific Coast Firemen's Union in two districts, lumber and maritime, are in a state of alert. In the lumber district we are negotiating and this alert is well known. Our friends and our allies in the maritime district are conscious of the alert and are on the alert. For the greater part of our maritime wages are at the rates of the Pacific Maritime Workers' Union Agreement which is now due for renewal. The members of the maritime district are aware of this fact but for the present do not feel it necessary to go on strike.

However, I am uncertain whether the other side is aware of the strike which was announced to go into effect as of 5:00 p.m. on the 15th of this month. We also wish to take this opportunity to state that we are not prepared to sell out and are not interested in selling out.

We are determined to carry out the strike that we have announced to begin at 5:00 p.m. on the 15th of this month, and I am certain that the work will continue until the strike is over.

A few words about the future of the shipowners among their fellow seamen. I am certain that the shipowners among their fellow seamen will not neglect the strike and will support it to the utmost of their ability.

Brother Arthur Cherry in January, 1937, a prominent member of the International Union of Lantern Bearers and President of the Lantern Bearers' Union, will be in this district to address the members of the strike.

In closing I wish to say that I am certain that the work will continue until the strike is over.

A SONG OF AN OCEAN STONE

The wave, the wave, it rolls

Out of the sea, it rolls

Towards the shore, it rolls

And I can feel it, I can feel it

Yet I must say, "Be not afraid;"

"Be not afraid, the wave will pass,

And the rock will make a rockstone.

Yet the wave, the wave, it rolls

Out of the sea, it rolls

Towards the shore, it rolls

And I can feel it, I can feel it

Yet I must say, "Be not afraid;"

"Be not afraid, the wave will pass,

And the rock will make a rockstone."
We have experienced both gains and losses in the last few days. The strike is increasingly effective, and we have seen some promising developments. However, there is much work to be done to ensure the success of our cause.

The Northwest joint strike committee today denied charges of machinery control, asserting that the committee is working to improve conditions for all striking brothers. They are committed to maintaining solidarity and fighting for fair treatment.

The Strike Committee in all ports continues to work tirelessly to support the striking brothers. They have also made tentative moves toward negotiations, and we hope these efforts will lead to a resolution.

Volunteers have been working hard to keep morale high and to keep our brothers informed. We encourage everyone to stay tuned for updates and to continue to support our cause.

Please join us in our fight for justice and equity. Together, we can make a difference.

Editor "Voice of the Federation"

Dear Editor:

A meeting of 135 striking seamen in the Port of Mobile passed the following resolution unanimously:

RESOLVED: That members of the Maritime Federation, while not disapproving of the decision of the respective branches, will support and encourage all the members of the auxiliary branches of their respective locals to remain non-violent and will continue to support their efforts to improve conditions of labor. They believe that the only solution to the existing problem is a peaceful settlement and that violence will only lead to further deterioration of the situation.

Please publish the above resolution in your paper.

Sincerely yours,

Voice Editorial Staff Attacks Head Lines

Dear Reader:

The above resolution is an example of how a person can change the world. It is a powerful statement that speaks volumes about the importance of peaceful resolution and the need for unity in the face of adversity. The resolution highlights the need for solidarity among workers and the importance of non-violence in achieving their goals. It is a testament to the power of collective action and the potential for change when people come together to fight for a common cause.

What Will The New Year Bring To Us?

A Special Editorial For the Women of the Wesleyan Church

As December comes to a close, let us ask ourselves: What will the New Year bring? But if we are to become prophets of what we would have to ask ourselves: What will the New Year bring? But if we are to become prophets of what we

San Pedro Unions Reach Wide Public

A hurricane-like wave of Maytime publicity that is rapidly reaching proportionately higher volumes is being sold by the nation's newsstands. From Los Angeles it has radiated across the country. With a hard news value, the wave is unbroken. The wave is reaching millions of people by way of local periodicals and newspapers. The wave is also reaching the public via radio, news bulletins and placards advertising the union label. The wave is spreading through the Grand Canyon of the publicity onslaught. We are a public service agency. We are making a great effort to encourage the public to do their work in an active and efficient manner. The San Pedro Unions have made significant concessions to the seamen's demands. The San Pedro Unions have accepted the Workers Alliance on the question of wages. The Workers Alliance has made several significant concessions. The San Pedro Unions have been encouraged to do so because we think it is the right thing to do. The Workers Alliance is the San Pedro Unions' choice. The San Pedro Unions have been encouraged to do so because we think it is the right thing to do.
