The C.I.O. and The White-Collar Workers

Office and professional workers everywhere have been excited by the successes of the Committees for Industrial Organization. These unions, it is only necessary to point out, are the most remarkable success of the American Newspaper Guild, in which we have been supposed to be one of the most individualistic unions.

The paralyzing defeat of the A.F. of L. leadership has not been confined to the white-collar, of course. It has been one of the most important blows against mass-production industries, until the C.I.O. went out and closed down the fifth largest port in the United States, known as the formation of an international union of the Pacific Coast District, to claim the 5,000 maritime workers.

The complaint is made that the A.F. of L. has "consistently ignored" the pleas of the union; that the C.I.O. has "assumed recognition by the officials of the Labor party who will come"; that the C.I.O. is "failing to recognize the power of the union; and that the power of the union is not a secret; but there is no possible chance for the C.I.O. to use the power of the A.F. of L. by going to the National Maritime Labor Relations Board.

HABILL REAL PLACE

The C.I.O. has never taken the attitude of some old-line A.F. of L. leaders, that the only solution of the white-collar problem was the formation of a separate union. If proof be needed of the practicability of white-collar unionism, it is only necessary to look at the record of the Times-Picayune, which has been successfully organized for the past 20 years.

The killing was unjustified—but it was just like the Better Worlds. Unusual opportunities for organization now appear in such fields as radio, motion pictures, public utilities, and the like. A C.I.O. campaign has taken place in the Golden Gate newspaper.

The VOICE Is Two Years Old

With this issue, the VOICE OF THE FEDERATION attains a new existence. It was on Friday, June 14, 1935, that the VOICE first appeared in print, and its dedication was to increase the propaganda work done under the auspices of the San Francisco Office of the CIO. It was created to increase the influence and effectiveness of the CIO in the West, and to provide a vehicle for the expression of the views and concerns of the working class.

Today, as we celebrate our second anniversary, we are proud to announce that the VOICE has grown and matured. We have established a strong presence throughout the region, and our influence continues to grow. We are grateful to all those who have supported us, and we look forward to continuing our work in the future.
