Big I.L.W.U. Meeting Gives Liberal Support To Cause Of Three Frameup Victims

Assessment of Fifty Cents Per Member Voted To Support Drive of Defense Committee; "Labor Never Forgets!"

At a large meeting of the I.L.W.U. Local 1-10, held at the Eagle Wharf on October 10th, the members were asked to loan themselves fifty cents per member for the purpose of helping along the work being done by the National Maritime Defense Committee.

After the details of the call from the Secretary-Treasurer of the Defense Committee were explained, the defense in the past and the work which is proposed for the future was discussed. The meeting adjourned open for nominations and action, and the motion for the assessment was carried.

The call to all public-spirited groups to take part in the fight against the ordinance was issued by John Shelley, president of the San Francisco Labor Council and chairman of the Defense Committee.

"There have been many labor organizations, civic clubs and fraternal groups in every corner of the United States and Canada who have loaned fifty cents each in their fight for the defense of honest labor,"

Mr. Shelley said. "It is not too much to hope that these same organizations will do likewise in the defense of the defense committee."

ANTI-PICKETING DRIVE OPPOSED BY S. F. COMM.  

Vice-President of the Chamber of Commerce. The unions, led by the AFL, are opposing the legislation. 

Presenting a United PAC plan for the sit-down strikes is Victor Rose of the Steel Workers Organizing Committee (SWOC) and Vic Johnson of the SDLC (San Francisco Democratic Labor Committee). 

Recently, classes have been in session for four weeks. 

Scarcely a newsboy could be found near the stations of the San Francisco Chronicle, SF Examiner, and SF Chronicle. 

The new bill is designed to help the enforcement of the labor laws, to make the unions more responsible to the public, and to prevent the abuse of sit-down strikes. 

It is hoped that this legislation will be passed by the state legislature in the near future.

A STATEMENT FROM THE PUBLICITY COMMITTEE OF LL.W.U. 15-0

The FLEET of the Union

It's not easy to forget the talk of the Pacific War. For many of us, the term "picket" and "strike" were foreign concepts. But now, as the war comes to an end, we must face the reality of our situation. The Japanese fishing invasion has disrupted our plans to continue the war effort. It's time for us to stand together and fight for our rights.

The Japanese fishing nets have been a constant threat. They have been found miles off Cape Greig in Bristol Bay, causing destruction to our local fishing industry. These nets, which are "vacuum cleaners," have been caught on our fishing boats and made navigation difficult. The nets are dangerous to our vessels and to our fishermen. They are a threat to our livelihood.

The Japanese have been using these nets to catch salmon. We must fight against this invasion. We can do so by supporting our local union and working together to oppose the invasion.

It's time for us to stand together. We must be united in our efforts to fight for our rights. Let's not let the Japanese fishing nets take away our livelihood. Let's stand together and fight for our future.

Drift fishing for salmon is a popular activity in our area. However, the drift nets used by the Japanese are causing problems. These nets are 200 feet long and have a 20-inch mesh size, making it easy for them to catch salmon. Our fishermen are struggling to compete against this invasion and are losing their livelihood.
