Death May Free Human Truth

Charles M. Fickert is dead. Fickert, former San Francisco District Attorney, and the man who convicted Al and N. K. Billings were railroaded to prison.

While the new judge is in San Francisco and the old judge is house-bound in the old home in Los Angeles, all the trials in the Billings case will be continued.

AN OPEN LETTER TO THE M.F.P.C.

Brother Fellow:

I am writing this letter to express my deep concern about the current state of affairs within the Maritime Federation of the Pacific Coast. I believe it is imperative that we address this issue head-on to ensure the future success of our cause.

Firstly, I want to bring to your attention the recent behavior of the M.F.P.C. in handling the affairs of the men on the waterfront. It is my belief that the federation is not acting in the best interest of the workers, and I urge you to consider this carefully.

I understand that the M.F.P.C. has attempted to negotiate with the owners of the vessels, but I am concerned about the lack of progress that has been made. It is clear that the owners are not willing to make the necessary concessions to improve the working conditions of the seamen.

Furthermore, I am concerned about the actions of the M.F.P.C. in its dealings with the waterfront community. There have been instances where the federation has failed to adequately represent the interests of the workers, and I believe this is unacceptable.

I urge you to consider the following actions:

1. Demand that the M.F.P.C. negotiate in good faith with the owners of the vessels.
2. Insist on the enforcement of fair working conditions for all seamen.
3. Demand transparency and accountability from the M.F.P.C. in all its dealings with the waterfront community.

I am confident that with your support, we can achieve meaningful change. Let us work together to ensure the well-being of all seamen.

Sincerely,
[Your Name]

Additional Rank and File Letters

Two Resolutions

On October 15, 1935, the Maritime Workers News published the following resolutions:

Resolution 1: The S.U.P. to the A.F.L.

Resolved: That we, the stewards' delegates, representing the rank and file of the S.U.P., hereby call upon the A.F.L. to recognize us as the official representatives of the S.U.P. and to allow us to be represented in the A.F.L. as the S.U.P. workers are.

Resolution 2: The S.U.P. to the S.U.P.

Resolved: That the officers of the S.U.P. be instructed to hold the 1936 convention in Astoria, Oregon, and that the resolution be submitted to the delegates for approval.

Aberdeen, Wa.
IN THE TRADE UNION MOVEMENT

There is something more behind the activities of the I.S.U. than the old struggle to get the seamen to strike. This something is the realization that the seamen are important and that the I.S.U. is important because of the seamen. This is the reason why there is no more united mass meeting of the A. F. of L. than there is a united mass meeting of the I.S.U. The I.S.U. is a fighting trade union, and the seamen are its fighting members. The I.S.U. is not fighting its members, but it is fighting for its members. The I.S.U. is not fighting for the seamen, but it is fighting with the seamen. The I.S.U. is not fighting for the seamen, but it is fighting with the seamen. The I.S.U. is not fighting for the seamen, but it is fighting with the seamen.

The successful safety campaign conducted by the Washington, D. C. office of the ILWU last year, and the successful safety campaign conducted by the ILWU office in San Francisco this year, prove that the I.S.U. is fighting for the seamen. Inland Boating's News and Notes

As a result of two special meetings last Wednesday, the I.B.P. and the I.L.D. have cut the prices of the Southern Pacific and Los Angeles Red Star lines, and will meet in the near future to discuss the price of the Northern Pacific line.

The I.B.P. was in the hands of Brother Engstrom last week, who was the only member of the board to attend the meeting. Brother Engstrom states that the I.B.P. has been conducted in a manner that has been satisfactory to all.

The I.L.D. has been meeting regularly, and Brother Dunn, who is the secretary-treasurer, states that the I.L.D. has been conducting its affairs in a manner that has been satisfactory to all.

Both organizations have been working hard to get the prices of the lines down, and both have been successful in their efforts.

The I.B.P. has cut the prices of the Southern Pacific and Los Angeles Red Star lines, and the I.L.D. has cut the prices of the Northern Pacific line.

The I.B.P. and the I.L.D. will meet in the near future to discuss the price of the Northern Pacific line.

The I.B.P. has been conducted in a manner that has been satisfactory to all, and the I.L.D. has been conducting its affairs in a manner that has been satisfactory to all.

Nazi Union Wrecking Hits German Longshoremen With Low Wages and High Taxes

(Continued from Page 1)

The situation has been described by Samuel Gompers as follows: "Your telegram of October 27th, 1930, called the attention of the CIO to the conditions prevailing in this port, and the CIO has been disturbed to learn of the exaggeration of labor conditions and the intolerable treatment of the longshoremen in the harbor of Hamburg. In meeting this situation, the CIO will give the German workers the full support of its good offices, and will engage in a thorough examination of the entire labor situation in that port in order to establish the truth of what is alleged to be the condition of the longshoremen. The CIO will endeavor to obtain full information from the employers and longshoremen in the harbor of Hamburg in order that it may be in a position to present the facts to the proper authorities. This will be done in an uncompromising manner, and the CIO hopes that it may be possible to arrive at a settlement of the dispute which will be satisfactory to all parties concerned. The CIO will continue to give the fullest support to the German longshoremen in their efforts to secure a just and equitable settlement of their grievances."

(Continued from Page 1)

Anti-Picketing Issue Must Be Faced by Labor

A dangerous anti-picketing incident occurred earlier this month in the course of picketing by the American Federation of Labor and the Congress of Industrial Organizations. The incident involved the use of force by the labor organizations to prevent workers from entering a warehouse. The action resulted in the arrest of several workers. The labor organizations have denied any responsibility for the incident, stating that it was committed by individuals acting in an unauthorized manner.

JAPS THREATEN TO EXTERMINATE NON-COMBATANTS

(Continued from Page 1)

The Japanese government has announced its intention to exterminate all non-combatants within the territories it occupies. The announcement was made in response to the increasing number of casualties among civilians in the Pacific. The Japanese government has stated that it will take all necessary steps to ensure the safety of its military forces and that the extermination of non-combatants is necessary to protect the Japanese military and civilian population.

U.S. STEEL CORP. CONSIDERING CHECKOFF AND CLOSED WORK

(Continued from Page 1)

The U.S. Steel Corporation is considering implementing a checkoff and closed work system in its plants. The company has stated that it is considering this action in response to the increasing costs of labor and the need to improve efficiency. The checkoff system would allow the company to collect a percentage of workers' wages for union dues and other purposes. The closed work system would include a variety of measures to prevent union activities, including restrictions on the movement of workers and the use of agents to monitor union activity.

CIO Plans Ahead

(Continued from Page 1)

The CIO has announced its plans for the future. The CIO has stated that it will continue to expand its activities and to organize new industries. The CIO has also announced its intention to strengthen its ties with the international labor movement. The CIO has stated that it will work to increase its influence in the international arena and to support the rights of workers around the world.

CIO-A.F.L. Parley Set For Oct. 25th Offers Peace Solution Goal

(Continued from Page 1)

The CIO-A.F.L. parley is scheduled for October 25th and is expected to offer a peace solution goal. The parley is being held in order to resolve the differences between the two labor organizations. The goal is to achieve a peaceful resolution to the labor disputes and to promote a united front against the employers. The parley is expected to be attended by representatives from both the CIO and the A.F.L. The outcome of the parley is uncertain, but it is hoped that a solution will be reached that is acceptable to both sides.

BUNDLE ORDER BLANK

In the interests of the solidarity of all maritime workers of the Pacific Coast, the "Voice of the Federation" urges you and your union for full coop-er-and-operation.

You are urged to appeal to your union to order as many copies as possible of the "Voice of the Federation" in order to build a united front against the employers. This is a good time to try to get merchants to advertise in the "Voice of the Federation".

BUNDLE SUBSCRIPTIONS

Single Bundles:
