Manufacturers Approve Use Of Strikebreakers

Senate Probe Reveals How Industrial Leaders Support Sluggers, Tear Gas Attack

Findings of Labor Board Failed to Alter Methods Backed by Tory Business Group, La Follette Committee Learns

By Federated Press

WASHINGTON — The tactics of the infamous Mohawk Valley Furriers, used to break the strike of Bangor-levan Furriers union, which aimed to get at the needs of the little strikers, by the National Association of Manufacturers, were exposed by the Senate, with the committee that the Senate labor committee, and which might have continued the probe of the employers' association.

The committee found a pamphlet, entitled, "Labor and the Third Party," which was published by the American Federation of Labor. The AFL had circulated among executive members of the National Industrial Council, an affiliation conference group of the Washington labor federation.

Repeated in detail in the document, this pamphlet was the Mohawk Valley Furriers'"Labor and the Third Party," which was put in the hands of the unemployed and the workers.

During the investigation, the Employers' association supported the owners' association in the conflict.

Tories Cry, ‘Billions For War’ But Not One Cent For Starving

**ECONOMIC ROYALISTS SHOUT “BALANCE THE BUDGET” TO SUPPRESS VOICES OF POOR**

By HAROLD COY

A billion for war but not one cent for food, shelter, clothing and medicine for the third of the people. This is the unuttered motto of a small group of powerful men, the so-called economic royalists or royalty of America’s 60 families. Much of the news these days comes from the family which can afford to hire the best society publicity pawns.

But the vast majority of the people in this country have not been deceived and are aware of the real issue. They know that they must make a choice between life and death and that they must put a stop to the hooded conservative bandit which can be seen hounding them from all sides.

As long as those who are profiting and living “the good life” refuse to make the sacrifices necessary to save the lives of millions, they should be stripped of all privileges, all power and all property.

The committee on medical care, created by the New York State Medical Society, includes many of these hooded men in its report. In the name of science, in the name of humanity, in the name of decency, these men have been飕ven and torn to pieces.

The report of the committee states: “In order to preserve the rights of the doctors in the field of medical care, the committee recommends that the government should take over the practice of medicine, the Technical College. This is the blueprint for Fascism. It is also the blueprint for war.

The committee’s report is a clear indication of the trend towards fascism in this country. It is a call to arms for the masses of people who are struggling to survive in a world of poverty and war.
