MESSAGE FROM TRENTO

"Huskie" is a man of the people. At the beginning of the strike, he brought a group of seamen to the railhead and said, "You've got to win this strike!" And now he's getting ready to go home to the people again. His advice to you is to hold fast to the principles of the AFL, to keep your eyes on the prize of a union agreement, and to remember that this is your fight. Let's use our strength in the strike to build a better future for all of us.

ADVISER LUNDGREN

Dear Brother, I am writing to ask the honor of your attendance at the meeting of the AFL Local Union No. 1650, scheduled for 7:30 P.M. on Tuesday, March 15, 1938, at the Riverside Civic Hall, 1240 N. 1st St., San Pedro.

The meeting will discuss the current labor situation and the importance of unity among workers. I hope you will be able to attend.

Sincerely,

FLIGHT OR FUNERAL?

The news of the tragic plane crash in the San Francisco Bay area has saddened the entire nation. The last word from the pilot was, "We're holding our own for now." How does the world feel about this? Do you think the pilot was brave or foolish? Why?

Alas, it's a sad day. But let's remember that we are all human and that things can happen to anyone. Let's support each other and remember to stay strong.

Open letter to Fickle Harry:

I wonder whether you have ever thought about the situation of the working classes in this country. We have come down so low in your estimation, and you have forgotten all about the values and the meaning of Unity. Maybe what you meant was something different, but I'm not so sure.

Your policies have been very inconsistent, and I wonder why it is that the AFL has been able to hold together for so long. You and I could not get an answer from you, but you did not think so.

I hope you will re-examine your tactics and your policies, as MacKenzie and I wonder whether you are prepared for the most difficult times. It's going to be a feast or a funeral, and you better get hold of it and digest it.

Sincerely,

Alf. Michelson

**Sen. Wagner Sounds Bottle Cry**

Senator Wagner, whose labor record is 100 per cent in favor of labor, has been 100 per cent more active than that of most of his fellow Senators, made a speech to the Alamedan Christian Embattled Church of 1928, held at Atlantic City, which deserves the widest possible circulation. He said that labor and its liberal allies "will not only hold the ground we have gained, but will extend it."

"You and I know too well that the National Labor Relations Board is not a police force, but a very considerable force on the side of labor. Where the balance of power was formerly on the side of labor, the law has given the labor movement an advantage which cannot be reckoned with.

"We know only too well that the National Labor Board is a factor which has made it possible for us to stand against the pressure of the great concourse of forces that are opposed to labor. But I have faith in the enlightenment and intelligence of the vast majority of business men, and in the courage of labor. I know that they will stand fast and repel the attacks of men of money. But I am interested in the word for the expansion of our liberties and the enrichment of the human spirit."

"Of course, we have ourman who has overestimated the numbers of those who are against us, but the numbers are actually very worth-while. Our friends have been working hard, and the present is on the side of truth."

DEAR SIR AND BROTHER:

We report of the American Federation of Labor and Congress of Industrial Organizations, that a convention has been called for the purpose of framing a national policy. We understand that the convention will be held in San Francisco.

We wish to express our appreciation of the work that has been done by the convention. We are confident that the convention will be successful in its efforts.

We would like to express our support for the union movement. We believe that the union movement is the best way to achieve the rights of workers. We support the union movement and we will do all we can to help it succeed.

We hope that you will support the union movement as well. We believe that it is the best way to achieve the rights of workers.
