CONGRESSIONAL RECORD

ROOSEVELT FROWS ON WAR BUDGET

WASHINGTON, Jan. 28—(AP)—President Roosevelt today submitted to Congress a request for a substantial increase of the nation's war budget.

The President explained that the additional funds would be needed to keep up the present pace of building up the armed forces and to expand the war equipment program.

The President said that the United States was still the only country in the world which could meet any challenge to its sovereignty and independence.

The budget request was transmitted to the Senate and House of Representatives by the Secretary of the Treasury.

HAGUE'S JUSTICE FALLS WITH APPALLING BRUTALITY ON 3 LOYAL PACIFIC COAST SEAMEN

The Hague's International Labour Court has condemned the United States Government for the brutal treatment of three seamen, who were seized by American authorities in San Pedro, Calif., and who were later declared by the Hague Court to be victims of illegal labor practices.

The Hague Court ruled that the United States had violated the principles of international labor law by depriving the seamen of their rights to freedom of movement and association.

Ukiah Tory Gay Aimed At Unionism

Velasco (Calif.)—The aim of the American Federation of Labor is to organize workers into unions, which will give them the power to bargain collectively for higher wages and better working conditions.

The American Federation of Labor has set up a committee to work for the formation of unions in all parts of the United States.

The committee has already succeeded in organizing a number of unions, and it is expected that many more will be formed in the near future.

The American Federation of Labor is not content with mere organization, but it works actively to promote the interests of its members, and to improve their conditions of life.

The aim of the American Federation of Labor is not only to secure better wages and working conditions for its members, but to make the labor movement a force for good in the community, to promote the welfare of all workers, and to help to build a better world.
New Orleans Police Threaten to Kill CIO Aides in Strike

Cleveland Finds Cash to Secure Food for Needy

Cleveland (AP)—Delivered by the Red Cross relief agency here yesterday were the following reports on conditions in Cleveland:

Five committees were formed yesterday by the AFL-CIO union in order to raise funds for the needy in the city. The committees consist of representatives from the local banks, the AFL-CIO union, and several other organizations.

The following is an official report by the Mobile Industrial Council on the events leading up to the refusal of termenced organized workers in New Orleans by the employers, the police and AFL officials to prevent the CIO from carrying out their legal organizing activities:

Maryland Harbor, Md. (AP)—A strike of approximately 2,000 longshoremen in the Baltimore area ended today after a week of negotiations with the employers.

The strike was called by the International Longshoremen's Association and was the result of a dispute between the union and the employers over the terms of a new contract.

During the strike, the employers had offered to return to work but the union demanded a better contract. After a week of negotiations, both sides agreed to a new contract and the strike was ended.

CIO HEADQUARTERS RAIDED

The following is a report on the raid on CIO headquarters by the New Orleans police. Many CIO organizers were arrested and two were shot. The raid was a result of the actions of the AFL leadership.

New Orleans Police In Workout

The following is a report on the police action in New Orleans. The police were investigating a strike-breaking scandal and arrested several CIO organizers.

Two teamsters shot

Two teamsters were shot in New Orleans on Thursday, October 25, in an attempt to establish a company union pleasing to the company management.

Backwash of Congressional Adjournment Stirs Praise, Condemnation in Summary

WASHINGTON (FP)—In the backwash of congressional adjournment were numerous summaries of the past legislative session. The AFL, CIO, and railroad brotherhoods expressed gratification generally. The WRB and SGA expressed dissatisfaction generally. The WEA was opposed to the passage of the wages and hours bill, criticizing by its organizers as a defeat for the labor movement. The SGA, which had already endorsed the bill by the Rules Committee, was indefinitely postponing consideration of it in the House of Representatives. The CIO, in its official organ, the Daily Worker, said that the adjournment marked only the beginning of the battle for the labor movement. The SGA, which had already endorsed the bill by the Rules Committee, was indefinitely postponing consideration of it in the House of Representatives. The CIO, in its official organ, the Daily Worker, said that the adjournment marked only the beginning of the battle for the labor movement. COPELAND MOURNED BY FAKE MEDICINE QUACKS, UTILITY MAGNATES AND SHIPOWNERS

By ALEXANDER L. CROSBY

NEW YORK—True to form, the convention of the National Labor Relations Board opened with a quietResolution that the body was not aware of the death of the late Senator Robert F. Wagner, who had presided over the board. The resolution, signed by the board's five members, was then presented to the labor leaders who were present.

The board's resolution was followed by a similar one from the American Federation of Labor, signed by the heads of the various affiliated unions.

Mr. Wagner had been greatly respected by labor leaders, who considered him a friend and a champion of their cause.

Mr. Wagner had been a strong advocate of labor rights, and had worked hard to improve the conditions of workers.

His death was a great loss to labor, and his memory would continue to be honored.

Mr. Wagner's funeral was attended by many labor leaders, who paid tribute to his memory.

Mr. Wagner's death had a great impact on the labor movement, and his legacy would continue to inspire labor leaders to fight for the rights of workers.

Battles For U. S. Seamen

Floods Give Chinese Big Advantage Over Enemy

By ANNA LOUISE STRONG

The use of the mighty Yangtze River, the world's fourth longest river, as a transportation media for the Chinese, is more and more evident as the Japanese advance up the river toward the inner depths of China. The river is now a focal point of the overriding battle for China. With the approach of the enemy, the Chinese now have to turn to theYangtze as their all important supply route.

The river, beginning at the junction of the Yellow River and the Yangtze near Peiho, has a length of 1,850 miles and a width of from 200 to 300 feet. It runs through the province of Kiangsu and on down through Hunan and Hopei province, passing through the cities of Nanking, Hankow and Wuhan.

The Yellow River joins the Yangtze near Peiho, forming the Yangtze River. The Yangtze is the largest river in China and is the second largest in the world.

The use of the Yangtze River as a transportation media is not new, but the present situation shows a much more intense use of the river as a supply route.

The river is now being used to transport troops, supplies, and food to the front lines of the battle. The Chinese are using every possible means to control and utilize the river for their own purposes.

The Yangtze River is a vital asset to the Chinese in their fight against the Japanese. The river provides a supply route for troops and supplies, and also serves as a defensive barrier against the Japanese advance.

The Chinese are utilizing the river to transport troops and supplies to the front lines of the battle. The river is a vital asset to the Chinese in their fight against the Japanese. Back-To-Work Movement Backfires; Union Men Sit Down

SHERIFF LEADS 400 STRIKERS BACK INTO MAYTAG CO. PLANT ONLY TO SEE SCABS CAST OUT

By MITCHELL HOWARD

NEWTON, Ia.—A back-to-work movement backfired on the strikers when 400 union members marched into the struck plant of the Maytag Co. and began working Friday.

The maneuver was one of the series of critical decisions that were made by the strikers in this community that may decide the outcome of the strike.

When the company got an injunction limiting the number of strikers and the police moved in, the strikers changed the plan and marched into the plant.

The sheriff and his men were waiting and the two sides came to blows near the plant. Then a series of unfortunate events occurred that led to the scab's attack.

Dismal Picture Shows Millions Of Hungry Tots

GENOA, Ill.—A. D. Lewis, president of the Child Labor League, pointed a dismal picture of conditions in the United States.

The conference was called for the purpose of finding a solution to the problem of child labor.

"We are in the midst of a crisis," said Lewis. "The children of this country are suffering from starvation, disease, and illiteracy. The situation is desperate."
