Resolution Calls for Blanket O. K. on Picketing

Seattle Resolution Concelas Attack On Unions

Keeps Your Eyes’ Open Brings Retort From Greathouse of MFW

(Continued from the front page of the Voice, Aug 28)

This letter was delayed in the mail on the way to its destination.

Dear Sir:

I wish to answer the article on the front page of the Voice, Aug 28, which is addressed to me.

My last letter, which was addressed to you, was printed in the Voice on Aug 28. This letter is in reply to that.

I was not aware that the Laborers’ Union (Seattle) had endorsed the Open Shop at this point in our union’s history.

It is true that I have endorsed the Open Shop at this point in our union’s history.

I have been a member of the Laborers’ Union (Seattle) for many years.

I am writing to express my concern about the recent developments in our union.

The Laborers’ Union (Seattle) has endorsed the Open Shop, and I believe this is a serious mistake.

I am a firm believer in the closed shop, and I am deeply concerned about the impact of the Open Shop on our union.

I urge the Laborers’ Union (Seattle) to reconsider its decision on the Open Shop.

Sincerely,

Seattle DC Wires Protest To Roth

Seattle—Declaring that the Waterfront Employers immediately stop their strike, a group of Seattle longshoremen wired Theodore Roosevelt, Jr., labor chairman, protesting the strike.

If the port is to be kept open, the follow-up action of the employers on the proposal for the Waterfront Employers to open the port will be considered.

The seamen are determined to keep the port open, and they are willing to work overtime to ensure that the port is kept open.

The Waterfront Employers immediately stop their strike, and the port will be kept open.

REOPEN NEGOTIATIONS

With the employers, I urge you to reopen negotiations as soon as possible.

If the employers continue to insist on the strike, I will be forced to take action to ensure that the port is kept open.

Sincerely,

Just what does it mean if the employees should feel their demands? The employers would use the new company to exploit and repress the laborers, just as they have done in the past.

The union hiring halls are the only way to ensure the rights of the employees. Without them, the employees would be at the mercy of the employers.

The resolution is a means to protect the employees from the employers' attacks.

The strike is a necessary step to ensure the rights of the employees.

WORKERS' UNITY MUST BE FACT

UNITY VS. WAGE CUTS

Off all the questions and problems at the heart of the struggle for the Federation today, the question of unity is the most crucial. Without unity, the Federation is more than a shadow. To achieve maximum efficiency and maximum membership, it is essential that the Federation be a fact in the minds of the workers in every port. The question of unity is not just one that affects the longshoremen, but all workers in the maritime industry. The question of unity is not a matter of sentiment or personal opinion, but a matter of practical necessity. It is essential that the Federation be recognized as a fact in the minds of all workers.

QUICK! QUICK!

Here's the story! Some of those guys out there on the waterfront who are fighting for a wage cut are trying to make it look like the seamen are anti-union. But the truth of the matter is, the seamen are strongly in favor of the Federation and its efforts to improve conditions for all workers. If you hear anyone talking about the Federation being anti-union, just discount the story and keep on fighting for what you believe in.

The San Francisco longshoremen's picketing committee has been busy organizing picketing activities. They have set up picket lines at the docks to prevent the arrival of ships. The committee has also been holding meetings to educate the workers about the benefits of the Federation and the importance of unity.

Ballet-Say

The Ballet-Say has been working hard to organize the workers and get them involved in the struggle for unity. They have been holding meetings and distributing literature to spread awareness about the Federation and its goals.

Michael DeMattia, President

The President of the Federation has been working to strengthen the committee and increase its membership. He has been working to ensure that the committee is made up of dedicated and committed workers who are willing to fight for the Federation and its goals.

Regular Meetings every Tuesday, 8:30 P.M.

In November, we will see one of the most important meetings in the history of the Federation. The meeting will be held to discuss the future of the Federation and its plans for the coming year. It is essential that all workers attend this meeting to help shape the future of the Federation.

No one idea, concentrated on one plan: labor movement is the aim to create unrest and unemployment and would climb to power. Already Big Business, their subversive plotting is on the hacks of the workers. They are trying to confuse the issues at all costs; re- titles that either the speed-up or the present "New Look" conditions requires more speed-up. This is what the Federation is standing against.

Witch Hunt
Reveals Strange
Bed-fellows

Witch hunts. Well, the big witch
hunt that the government is
now using to try to silence
people who object to
their policies is not new.
Even before World War II,
the government used a
similar tactic to silence its
opponents.

The witch hunt against the warehousemen's
union is just one example of how the government
is using this tactic today.

We can learn a lot from
history about how to
resist the witch hunt.

VOICE of the FEDERATION

Shelley Has Support Of All Labor

From Andrew J. Galagher, for the Bakers and Confectioners of the San Francisco Branch of the AFL, California Political League, comes word that it has fought for the enforcement of the election laws. Shelley has already carried the battle to elect progressive leaders.

In every state on the coast party - Democratic and Republican - have swept away their weakness and the strength of progressive major parties in every state is a fact; it is a fact that Shelley has swept away the “tories” in a force of 100,000--party of the candidates of Shelley in the United States is watching you.

Unfortunately, the refusal of the AFL and the CIO to endorse Shelley for President only makes it harder to win the fight. Shelley and his friends are fighting for the election laws.

At the CIO, in view of the fact that he has accomplished more in the shortest, most conservative, and most democratic labor organization in the United States, should be able to get the vote of the CIO to be endorsed for President. Shelley is going to be heard on the “tories” in the United States.

Shelley is a non-party candidate, who is not impressed too strongly the absence of the non-partisan political league, he is going to be heard on the “tories” in the United States, and he is in a leading position for the election laws.

 god speed Shelley in his effort to stop the “tories” in the United States, and if you think he has a chance to stop them, in the United States, you will see to it that Shelley has a chance to stop them in the United States.

An Open Letter
In Answer To The Employers’ Will

By Ship Builders & Painters (ILWU Local 54)

We, the employers, have been reminded of our duty to remain true to the spirit of our agreement, in reaching agreement for the date of September 30th. Unite for September 30th.

Employers’ Maneuver

The employers were maneuvering to be able to concede to their demands, hoping that the public will not see the setback of the minority workers.

The necessary workers, however, were determined that these demands of the minority workers shall not be accepted.

We Ask Peace

We ask the shipbuilders of San Francisco to work together, both AFL and CIO, and to settle the dispute in a spirit of conciliation.

The necessary workers shall demand from the employers to respect their demands and to accept the agreement as of September 30th.

Workers for September 30th.

Union for September 30th.

Labor Unites To Face Open Shop Drive and Initiative on Labor Day

Seattle—With the open shop drive on both the employer front and the political front, all necessary workers shall think together for a just understanding as to the spirit of the labor movement.

The necessary workers demand that the employers respect the agreement of September 30th.

Oakland March Bigger than Ever

By Oakland ILWU Warehousemen

OLAND—From all indications, Labor Day will be the biggest and best parade ever held here. It has been reported that so far, every CIO union has agreed to parade, and the delegates of the Labor Day Parade Committee have worked hard to make this year’s parade one of the greatest in the history of labor. It will be held in Oakland on September 29th.

We Ask Honorable Peace

When we were fighting for our rights, we found that peace would come after we had wrestled with the big men. Peace will come after we have defeated power and resistance. We are now making peace with the big men, and we are making sure that they have not used us as cheap labor.

We are asking for an honorable peace. Peace that will bring an end to the bosses and the union men. Peace that will bring an end to the exploitation of the working man. Peace that will bring an end to the wages that are too low for a decent living.

We want peace in our time. We want peace that is not only for now, but that will last for the future. We want peace that will bring peace to our children and grandchildren.

We are asking for an honorable peace. Peace that will bring an end to the exploitation of the working man. Peace that will bring an end to the wages that are too low for a decent living.

The employers answer is legend—"To hell with peace." The employers talk of "peace." They lock out employees and refuse to pay wages. They refuse to make any improvements in the workplace. They refuse to listen to the workers.

The employers are just as guilty as the union men. They are just as responsible for the troubles that we face. They are just as responsible for the wages that are too low for a decent living.

We are asking for an honorable peace. Peace that will bring an end to the bosses and the union men. Peace that will bring an end to the exploitation of the working man. Peace that will bring an end to the wages that are too low for a decent living.

We want peace in our time. We want peace that is not only for now, but that will last for the future. We want peace that will bring peace to our children and grandchildren.

LET LABOR UNITY BE THE BULWARK OF DEMOCRACY

UNITY OF WORKERS MEANS JOB SECURITY

IN '34 . . . . . the workers fought and died to gain better conditions.

IN '36-'37 . . the workers vigorously fought for and attained unity among the maritime crafts and by solidarity kept the gains they made in '34.

IN '38 . . the maritime workers are fighting for unity in all crafts and industries. Labor knows that unity and solidarity is the only way to STOP THE BOSSES in their futile attempt to destroy all unions.

UNITY OF WORKERS MEANS JOB SECURITY

UNITY of all crafts and all coasts! That is the goal of maritime workers East and West. It can only be achieved by rank and file controlled unions, captained by their own democratically elected leaders, joined together in a National Maritime Federation that will encompass the entire industry.

“Divide and rule” was the motto that served employers in days gone by. In their fight against labor they played race against race, craft against craft, port against port, coast against coast. But it won't work any more. Maritime labor knows that its strength rests in unity.

One craft or one port cannot take action without affecting all crafts and all ports. By the same token, one craft or one port cannot hope to win its fight without the solidarity of all crafts and all ports.

“An injury to one is an injury to all!” That is the slogan of the Maritime Federation of the Pacific today. Tomorrow it will be the slogan of a National Maritime Federation.

The road is not an easy one. Shipowners throw every obstacle in the path. Reactionary international officials play hand in hand with employers to prevent labor from achieving its goal. But the steady progress cannot be stopped. Maritime labor is on the march!
