The Maritime Federation of the Pacific

By BRUCE HANNON

President, Maritime Federation of the Pacific

WASHINGTON, D. C.

WASHINGTON—President Roosevelt has been accused of trying to "politicize" the President's Commission on Un-American Activities, as the result of the President's recent statement that the Federal Government should take the lead in the fight against un-American activities.

The President's statement was made in a speech before the American Bar Association, and was interpreted by some as a direct attack on the work of the President's Commission.

Roosevelt's statement came in the wake of the President's recent call for a "national security" program, which includes the establishment of a "national security council" to advise the President on matters of national importance.

The President's Commission on Un-American Activities was established by Congress in 1938 to investigate the activities of foreign agents and subversive groups in this country.

The President's statement was widely interpreted as a threat to the work of the Commission, and as a move to suppress any criticism of the government's foreign and domestic policies.

The President's statement was met with widespread criticism from both Republicans and Democrats, who saw it as an attempt to stifle free speech and to suppress the work of an independent investigative body.

The President's statement was a clear indication that the President was not willing to accept the recommendations of the Commission, and that he was unwilling to allow the Commission to continue its work without interference from the executive branch of the government.

The President's statement was met with widespread criticism from both Republicans and Democrats, who saw it as a threat to the work of an independent investigative body.

The President's statement was met with widespread criticism from both Republicans and Democrats, who saw it as a threat to the work of an independent investigative body.
To All Members of the Maritime Federation

This letter stands ready at all times to print letters and statements from any member or member of its affiliated organizations.

The columns of the Maritime Federation have always and will always be used for the use of organizations and members of organizations that any member feels a need to express.

We are sure that our members will continue to support the Federation in the same manner as in the past. The only limitation we put on such letters is that they must be in keeping with the purpose of the federation in mind of the violation of any communication.

The statements which have been made to the contrary are untrue and are not based on facts.

The Voice of the Federation is your paper.

Stool-pigeons in Unions Exposed

Editor: Some anonymous person sent me a copy of the "Rank and File," the first one to be issued since it folded up a couple of months ago. The sheet is edited by Octave Leoone, who edited it when folded up. Its main emphasis previously was against "Reds.

Today it has been revised by its original publisher in order to expose the rot and corruption of some of the newly elected and the MNU and their tie-up with the shipowners."

Loosies that the Maritime's Club "brought through a detective agency, the tool of the shipowners."

He goes on to say that the "handball baseball bat and always was shouting "Reds.""

"is in the employ of J. A. Loeser of the Brotherhood, who is supposed to report the story of their spying and disruptive activity."
Seattle — A political rally held by the Maritime Workers Union (AFIL) on Saturday afternoon in the Volunteer Park pavilion held a large crowd of workers and their friends. The speakers included John L. Lewis, President of the United Mine Workers, and Senator Harry Bridges, who addressed the crowd with a fiery speech. He called upon the workers to vote no on Initiative 130 and to support the Democratic party.

The rally was sponsored by the Democratic Labor Council of the Seattle Local of the American Federation of Labor. It was attended by hundreds of workers from the waterfront and other industries. The speakers emphasized the need for团结 and solidarity among workers in order to victory.

The rally was a call to action for workers to stand together and fight for their rights. The speakers pointed out that the future of the working class was at stake and that only through unity and determination could we overcome the obstacles.

The rally ended with a call to action to vote no on Initiative 130 and to support the Democratic party.

---

Seattle, Wash. — On Saturday, the Maritime Workers Union held a rally in the Volunteer Park pavilion to call for a vote no on Initiative 130, which would strike down the anti-grouping law. The rally was attended by hundreds of workers from the waterfront and other industries.

John L. Lewis, President of the United Mine Workers, addressed the crowd with a fiery speech. He called upon the workers to vote no on Initiative 130 and to support the Democratic party.

The rally was sponsored by the Democratic Labor Council of the Seattle Local of the American Federation of Labor. It was attended by hundreds of workers from the waterfront and other industries. The speakers emphasized the need for团结 and solidarity among workers in order to victory.

The rally was a call to action for workers to stand together and fight for their rights. The speakers pointed out that the future of the working class was at stake and that only through unity and determination could we overcome the obstacles.

The rally ended with a call to action to vote no on Initiative 130 and to support the Democratic party.

More About Roosevelt

(Continued from Page 1)

The President was disposed to carry through in bringing about a settlement of the strike. He intended all the bloodshed and riot were not the result of "wages and hours."

The President said that his attitude is based on the belief that the strike is not just about wages and hours, but it is about the issue of the control of the industry. The President believes that the strike is a part of a larger economic struggle between the workers and the employers. He also believes that the strike is a part of a broader struggle for social justice and economic equality.

Mr. Bruce Hunger
Secretary-Treasurer
Maritime Federation of the Pacific
119 Market Street
San Francisco, California

Dear Sir and Brother:

It was with pleasure that I received your telegram of October 31 and learned the views which you believe to be held by the Maritime Workers of the Pacific Coast. I greatly appreciate your courtesy in this matter.

With every good wish for yourself and for the members of your Union.

---

ILWU 1-68 Urges Unity of Labor

VOTES to Be Placed Abroad Ship

ILWU 1-68, representing the United Steel Workers of America, has placed a delegate on the executive board of the Pacific Maritime Federation, a union of maritime employees. The delegate will attend meetings of the federation and represent the ILWU 1-68 members.

The delegate will be responsible for the following duties:

1. Represent the ILWU 1-68 in all matters pertaining to the Pacific Maritime Federation.
2. Participate in the formulation of policies and decisions of the federation.
3. Serve as a liaison between the ILWU 1-68 and the Pacific Maritime Federation.

The ILWU 1-68 has long supported the unity of labor and the idea of a single union representing all maritime workers. The placement of a delegate on the executive board of the Pacific Maritime Federation is a step towards achieving this goal.

The ILWU 1-68 is committed to the principles of solidarity and cooperation with other unions. The delegation of a member to the executive board of the Pacific Maritime Federation is an important step towards achieving these principles.

More About Unity

Strikers Dance

On Saturday, November 11, 1939, the United Steelworkers of America and the American Federation of Labor (AFL) held a dance to celebrate the unity of labor. The dance was held at the Dreamland Auditorium on 8th and Morrison.

The dance was attended by thousands of workers from both the ILWU and the AFL. The event was covered by reporters from various media outlets, including the Voice of the Federation and the Portland Press. The dance was considered a success and was seen as a symbol of the growing unity of labor in the Pacific Northwest.

Vote No on Initiative 130

The campaign against Initiative 130 was a major topic of discussion at the ILWU 1-68 meeting. Initiative 130 was a proposed constitutional amendment that would have given the state of Oregon a role in the selection of presidential electors. The ILWU 1-68 was a strong opponent of Initiative 130, arguing that it would give too much power to the state government and would undermine the national unity of labor.

The ILWU 1-68 was supported by a broad coalition of labor unions and community groups. The campaign against Initiative 130 was successful, and the amendment was defeated on the ballot.

AFU Meeting

The AFL United Brotherhood of Carpenters and Joiners of America (AFU) held a meeting on November 12, 1939. The meeting was held at the AFU Hall on 5th and Morrison.

At the meeting, the delegates discussed various issues, including the need for unity among labor unions and the importance of standing up for workers' rights. The delegates also discussed the need for the AFU to work more closely with other unions in order to achieve these goals.

More About Progressing

An excellent discussion was held on the subject of the economy. The delegation from the ILWU 1-68 emphasized the need for a socialized economy in which the working class has control over the means of production. The delegation was encouraged by the response and the interest shown by the other delegates.

The ILWU 1-68 is committed to the principles of social democracy and the need for a united front of all workers. The delegation is looking forward to future discussions with other labor unions and community groups in order to achieve these goals.
California fishermen are facing a crucial battle in the November 8 elections on a proposition titled "Fishing Control" which must be defeated.

As Proposition No. 5, under the guise of protecting property, is really a violation of the basic rights of the people to the use of the ocean and the atmosphere, it must be defeated.

The vote of the people of San Francisco on November 8 will determine the future of the San Francisco fishing industry. The vote will determine whether we have a free and democratic society or whether we have a society in which private property is supreme.

A vote for Proposition No. 5 is a vote for the destruction of the fishing industry in San Francisco.

The consequences of a yes vote would be disastrous. A yes vote would mean the end of the free and democratic society in San Francisco.

A vote for Proposition No. 5 is a vote for the destruction of the fishing industry in San Francisco.

**ILWU 1-13 Hits Green's Republican Endorsement of Marble Top (Topropp)

By ILWU 1-13

ILWU 1-13 has repeatedly published in this paper its strong opposition to the candidacy of former Governor Merriam for the presidency of the California State Federation of Labor. Merriam, however, on his recent trip to San Francisco, has taken a strong stand in favor of Governor Merriam as a candidate for the office of Governor of the state of California.

The following letter was sent to theodore M. Burch, Secretary of the Federation:

"In answer to the request for your endorsement of Governor Merriam, I am glad to state that I have no objection to Governor Merriam serving as Governor of the state of California. In my judgment, he has always been a liberal and progressive man, and has done many good things for the people of California. However, I am also a strong advocate of the labor movement, and believe that the labor movement should be represented in the office of Governor of the state of California. Therefore, I shall endorse the candidate of the labor movement for the office of Governor of the state of California."

The Federation, in reply to Mr. Burch's letter, has announced that it will endorse the candidate of the labor movement for the office of Governor of the state of California. The Federation's position is that the labor movement should be represented in the office of Governor of the state of California, and that Governor Merriam is not a candidate of the labor movement.

The Federation's position is that the labor movement should be represented in the office of Governor of the state of California, and that Governor Merriam is not a candidate of the labor movement.

The Federation's position is that the labor movement should be represented in the office of Governor of the state of California, and that Governor Merriam is not a candidate of the labor movement.
More About Building Trades Leader

(Continued from Page 1) The report submitted to him on behalf of labor and in his candidacy for governor in this state or you would not receive the state of California, has a 100 per cent record of friendship for labor. In his record of friendship for labor In the present time to maintain their organization's machinery set up for their union to their fight against the Fink Haulers, fishermen, cannery workers, and steel workers, as well as the Council of San Francisco and District-wide Councils.

We are working to carry out the conservative criticisms of our union and to eliminate charges that we will be in a better position to resist the attacks of the enemies of labor and their agents.

The actual numerical strength of the Maritime Federation of the Pacific at this time is 18,545 members. To mention a few, the struggle of the Fishermen's Council affiliated on a coast-wise basis paying on a per capita subsidy paid by the Maritime Federation to the Voice of the Federation shown a profit at $150 per month for a thirty hour week. The actual numerical strength of the Maritime Federation of the Pacific in Ketchikan, Alaska, whose membership is 3,761.

The actual numerical strength of the Maritime Federation of the Pacific in the United States is 15,784 members, including those unions directly connected with the Maritime Federation of the Pacific.

Attempts by reactionary forces up and down the Pacific Coast to wreck the Maritime Federation of the Pacific have repeatedly shown willingness to any attack and its membership that one of the main problems facing the Maritime Federation of the Pacific is to resist the attacks of the enemies of labor and their agents.

This office is divided into the administration of the Federation and the Voice of the Federation from the inception of 1906 to June 30, 1906, for the purpose of developing the strength of the union and its membership. This week the Civil Service Building Labor Council and to the press. We believe our movement in California.

More About Warehousemen
