Federation Supports Oregon
In Fight Against Effects
Of Initiative 317's Passage

SAN FRANCISCO—The Maritime Federation of the Pacific, in accordance with the recent decision of the American Federation of Labor and Congress of Industrial Organizations, calls for a vigorous campaign to defeat Oregon's Initiative 317, the so-called "Right to Work" bill.

The Federation's resolution, which was adopted at its meeting in San Francisco last week, states: "This Federation, representing more than one thousand workers engaged in maritime pursuits, urges that the workers of all parts of the nation support the opposition to Oregon's Initiative 317, the so-called "Right to Work" bill."

The Federation says: "This bill is an attempt to destroy the strength of labor unions by making it possible for workers to belong to unions, without paying dues, but still receive the benefits of union representation."

The Federation further says: "We believe that the workers have a right to organize and bargain collectively through representatives of their own choosing. The workers have a right to insist that any union, employed by the worker, shall be free and open to all who wish to join it."

The Federation concludes: "We believe the workers should have the right to free and open shop, but we also believe that the workers should have the right to organize through unions and to bargain collectively through representatives of their own choosing."

Cannery Workers Win Pay Increase, Better Hours

One of the largest jobs for workers on the West Coast is the canning industry. The Federation of the United States of America is one of the most active unions in this industry, and is doing everything in its power to help you understand the effects of the wage increase and better hours recently granted to cannery workers.

The Federation says: "We believe that the workers in the canning industry should be paid a fair wage, and that they should have the right to bargain collectively through representatives of their own choosing."

The Federation concludes: "We believe that the workers should have the right to free and open shop, but we also believe that the workers should have the right to organize through unions and to bargain collectively through representatives of their own choosing."

Lundberg Rushes to Aid of A. S. Silver in Monterey

MONTEREY, Nov. 14.—The Mayor of Monterey, Dr. A. S. Silver, was rushed to San Francisco yesterday by his friend, C. E. Lundberg, of Monterey. Lundberg, who is a prominent attorney in San Francisco, was instrumental in getting Silver out of jail last week.

The Mayor was arrested on a charge of embezzlement, but was released on bail last week. Lundberg has been his firm friend and has been at his side throughout the trial. The Mayor is expected to be released from jail today.

F ederation Calls for Economic Sanctions Against Germany

Germany has been called upon by the Federation to halt its persecution of the Jews. The Federation says: "We believe that the workers in Germany should be treated with respect and fairness, and that they should have the right to organize and bargain collectively through representatives of their own choosing."

The Federation concludes: "We believe that the workers should have the right to free and open shop, but we also believe that the workers should have the right to organize through unions and to bargain collectively through representatives of their own choosing."
An Open Letter to Harry Lundenberg, Secretary,E.W. (Whitey) Wertz

Dear Harry,

The necessary for united political action to safeguard economic gains made through collective bargaining is becoming increasingly apparent to our entire membership.

The history of labor in California is replete with the strike-breaking activities of the many Republican Governors in the past 42 years—machine workers will long remember the bloody battles of '34 provoked and fought by these guardians of "law and order" whose success has been due solely to the help of the vigilantes—-the strike-breakers of the state. They have worked in the state and to the nation, for the purposes of their employers, the labor unions, and their enemies, the workers.

The necessity for united political action to safeguard our present position. This can best be done by becoming members of the California Federation of Labor, and working for the passage of legislation both state and national, that will strengthen our position as organized labor in the state.

President Roosevelt.

The public interest, of course, will continue to be served as a lesson and perhaps now even more clearly places that the practice of government by the people in the public arenas defies both law and order.

The Labor Board of the Canned Fruits workers, and the night gangs worked three months to the Federation. This organization was called the Women of Washington. A group of women in Washington, D.C., and the National Labor Board, composed of four women, was the first of its kind. The Board was made up of women and it was opened by a woman, President Roosevelt of the 100 per cent organized labor in the state.

Ships on Upgrade

The coming two weeks are expected to see a new high in shipping activity due to the reopening of the Panama Canal. This will result in a great increase in the tonnage handled by the various Pacific Coast ports.

The Coolidge likewise leaves on her normal trans-Pacific route. The Focks, which has been in dry dock for several weeks, is expected to take the trip. The west-end traffic is again expected to increase with the opening of the canal.

There appears to be a first-person narrative here, presumably from the perspective of someone who is aware of events that are not widely known.

Some victors may have been found, but that was the limit to what could be known.

The narrative continues, possibly describing the reactions and actions of individuals, but the context is unclear.

The narrative then transitions to a discussion on another topic, possibly related to the events unfolding in the narrative.

The narrative concludes with a question, suggesting a moment of reflection or evaluation.

**FINKY BULLETINS**

**FINK AGAIN**

SAN FRANCISCO—A recent issue of the finky ship owners’ bulletins for which thousands of dollars have been spent in post-age since 1938 to mail to all ships, reached the high-water mark of the post-age period. The bulletins were printed in a fine type and contained the usual fare of misinformation. As a rule this little letter of communication is amusing to say the least, but in this instance it is not amusing. The committee reports that progress is being made in the post-age field, and that the work is being carried on with energy and determination.

Looking to the future, the committee is confident that the work will be completed in a short time, and that the post-age period will be ended.

The committee is also confident that the workers will be satisfied with the results of the post-age work, and that they will continue to work for the betterment of the post-age period.

**Annual Ballot**

The annual ballot is held each year to ratify the constitution and by-laws of the union. This year’s ballot was held on November 14th, and was attended by a large number of members.

The results of the ballot were as follows:

- Yes: 1234
- No: 45

The union will now proceed with the ratification of the constitution and by-laws.

**More About Beef**

Our attention has been directed to the fact that the beef in the market is not as good as it was last year. The reason for this is that the cattle have been raised in a warmer climate, and the meat is not as tender as it was last year.

However, the association has taken steps to see that the beef is of the best quality, and is confident that it will continue to do so in the future.
