Brotherhood Head Hits At Profit-Sharing; Shares Laid Out

Brotherhood of Locomotive Engineers, a union with more than 100,000 members, today became the first labor organization to make public a profit-sharing plan. Mr. J. A. Whitney, general counsel of the Brotherhood, announced a plan which he said would be a boon to the working man's pocketbook. The plan provides for a dividend of 75 cents on every $100 of earnings. The dividend will be paid on a sliding scale, depending on the earnings of the individual worker. The plan is based on the principle that workers should share in the profits of the company. Mr. Whitney said that the plan was designed to give workers a tangible benefit from the company's success.

Editorial

The government, in seeking to curb the power of the corporations, is taking a step in the right direction. The profit-sharing plan announced by the Brotherhood is an example of how this can be done. It is not only fair to the workers, but it is also good business for the company. The workers will be more satisfied with their work if they know that they are sharing in the profits. This, in turn, will increase production and efficiency. The government should encourage more companies to adopt such plans.

Mr. Whitney says that the government should take a lead in this matter. He believes that all workers should be given a share in the profits of the company. He suggests that the government should set up a commission to study the matter and to make recommendations. The government should also take steps to prevent the exploitation of workers by the corporations.

Council Backs Metal Trades Strikers
At Ruby Dam

SEATTLE, Wash.—Washington District Council No. 1, AFL, reached an agreement Wednesday to support the Metal Trades Union strikers at Ruby Dam, 250 miles from Seattle.

The agreement was reached after a meeting of Central Labor Union officials and metal trades' representatives.

AFL, American Federation of Labor, and the Building Trades officials, agreed to work together in this case.

By Monday, the Central Labor Council in Seattle, AFL, local headquarters, had issued this statement: "The Central Labor Council in Seattle, AFL, demands that no stone be left unturned to assure the Metal Trades Union strikers the protection they require in this strike.

"The Central Labor Council in Seattle, AFL, is working together with the Metal Trades Union strikers to see that they get the protection they require in this strike."

The agreement is the latest in a series of agreements the Central Labor Council in Seattle, AFL, has reached with other labor organizations in the state, including the Electrical Workers' Union, the Plumbers' Union, the Steamfitters' Union, the Sheet Metal Workers' Union, and the Hotel and Restaurant Workers' Union.

The agreement also includes the provision that the Central Labor Council in Seattle, AFL, will supply food and shelter to the strikers and that the Central Labor Council in Seattle, AFL, will make every effort to see that the strikers are not disturbed by the police.

The Central Labor Council in Seattle, AFL, has also agreed to supply the strikers with medical aid and to see that they are not denied medical care.

In addition, the Central Labor Council in Seattle, AFL, has agreed to see that the strikers are not denied the use of the Central Labor Council in Seattle, AFL, meeting rooms and that they are not denied the use of the Central Labor Council in Seattle, AFL, library.

The Central Labor Council in Seattle, AFL, has also agreed to see that the strikers are not denied the use of the Central Labor Council in Seattle, AFL, office and that they are not denied the use of the Central Labor Council in Seattle, AFL, telephone.

In conclusion, the Central Labor Council in Seattle, AFL, has agreed to see that the strikers are not denied the use of the Central Labor Council in Seattle, AFL, facilities and that they are not denied the use of the Central Labor Council in Seattle, AFL, services.

The Central Labor Council in Seattle, AFL, has also agreed to see that the strikers are not denied the use of the Central Labor Council in Seattle, AFL, funds and that they are not denied the use of the Central Labor Council in Seattle, AFL, resources.

The Central Labor Council in Seattle, AFL, has also agreed to see that the strikers are not denied the use of the Central Labor Council in Seattle, AFL, assets and that they are not denied the use of the Central Labor Council in Seattle, AFL, properties.

**Labor Dis-Unity**

During a recent period of three days, the so-called "neutral" reps [representatives] of the great steel companies conducted a series of "depressing" conferences at which the "idea" of a "voluntary" wage reduction was held forth to the visitors of the steel companies. These meetings were held for the purpose of creating a false impression that the steel workers were united in their desire for wage reductions. However, the fact is that there were 11 alternates and 20 fringe workers who attended the meetings and all of them opposed the idea of a wage reduction.

Trampled as workers are, the public must still fight against exploitation and tyranny. Only in the case of German fishing workers is it possible to prove that solidarity in their ranks can prevent the dictators from lacking supply for their demands. A decision was reached to cut wages by 25% and a protest was mounted to strike against the reduction. Workers went on strike against the reduction and the owners promptly took advantage of the situation to cut wages. The strike lasted for several days.

Labor throughout the world concedes that in view of the fact that no more skilled workers are available, the employers will probably press for a 25% wage cut. This is the situation that confronts the working classes.

In his speech Saturday, CIO Representative and National Director Harry Bridges said, "This is the moment to remember the principles of democracy. The employers are using this moment to exploit the workers. We must stand up and fight for our rights."

In his report he said that the reduction of 25% was not acceptable, and he called on the workers to resist it. He appealed to the workers to organize and fight against exploitation.

Chairman Frank of the Portland Industrial Council, ran against Brother Brost for the presidency of the Portland Industrial Council. The following paragraph was presented by the candidates:

The candidates appealed to the workers to resist the reduction. They said that the workers should organize and fight against exploitation.

In the meantime, the workers have been seen or eaten in these parts, but all the same, they are still fighting for their rights. The struggle for democracy and workers' rights is still ongoing.

Ferryboatmen Lose Jobs As Service Stopped

SAN PEDRO—The first strike in the history of the Ferryboatmen’s Union, Local 1, on the Island was called Thursday by the FBR Lines, which operates ferries between the Island and the mainland. The strike is the result of the company’s failure to come to terms with the union on a new contract, which expires at midnight tonight.

The strike was called after a meeting of the union’s executive board, which was attended by the company’s representatives. The union called for a 24-hour strike, and the company agreed to negotiate.

The union’s demand is for an increase in the wage rate from $2.50 to $3.50 per hour, and a 10-hour day.

Complete Review of Maritime Commission Activities Reveals Startling Anti-Labor Policy and Pro-Shipowner Sympathies

The American Shipping Company, Inc., a major carrier of freight in American coastal and Great Lakes ports, is now being closely watched by the United States Maritime Commission, which has been investigating the company's activities. The Commission has been particularly concerned with the company's efforts to undermining the authority of the union representing the company's seamen, the Seafarers International Union of North America, AFL.

The Commission has been queryset the American Shipping Company for its refusal to recognize the union as the bargaining agent for the company's seamen. The company has been accused of using various tactics, including threats and harassment, to discourage the union's members from voting for it.

The Commission has also been investigating the company's refusal to negotiate a collective bargaining agreement with the union. The company has been accused of using various tactics, including threats and harassment, to discourage the union's members from voting for it.
