The local committees are to be appointed by the local ILWU unions.

Voice Brings You Life Story of Harry Bridges

By Lawrence Kennedy

By far the most popular and well known of the visiting labor leaders in the Northwest is Harry Bridges. The rank and file of the International Longshoremen's Union of this coast have never been so well organized as under his leadership. For years he has been the recognized leader in labor circles throughout the Pacific Northwest.

His life story is interesting in more ways than one, for it will be found that he has been brought up in the United States, but his father was a Norwegian. Young Harry Bridges loved his country and his home and had decided he would live on until all his dreams were realized, and he lived his dream.

When the waterfalls of the Columbia River were discovered, a gold rush took place, and the country was changed forever. The United States, in order to get the gold, opened its doors to all who would work hard and take in the gold.

Harry Bridges was one of the first to take advantage of this opportunity, and he worked hard and became a wealthy man. He returned to his native country and became a successful business man, and was a leader in society.

In the end, he died of natural causes, but his life story is one of inspiration to all who would strive for greatness. He will be remembered as a great man who lived a good life and died a good death.

Headquarters’ Notes

Meeting convened usual time, usual place, with Rev. Walter J. Stack celebrating the conclusion of his high school activities. S. President, B. H. Chandler, was named as Chairman.

In the Finance, after the temporary setbacks of the previous week, a satisfactory showing was made, and, after deducting one hundred and ten dollars for the City Group Center, an additional thirty dollars and fourteen dollars over goes to the reserve.

The payments on old bills were ten dollars to the District Treasurer, twenty dollars to the V.F.W., twenty-five dollars assumed in lieu of the soup kitchen bill owing since the previous month for the hundred and twenty dollars on the capital tax.

The weekly payments have certainly been mowing down the pile of back bills. It won’t be long now before the treasury fund will be up towards the ten thousand dollar mark, It was!!

The latter part of June was a very profitable month for the Federation’s works, and this month it was a very profitable month for the Federation’s works.

The progress in the negotiations with the Matson Steamship Company was a matter of great interest, and the assistance for a while, possibly $7.50 or $10.00 a week for the corner fine, fries its own eggs, patches its own pants, and is ready to appear before the Board for the fine on any number of occasions.

The meetings of the Board of Directors were held on the third days of the month, with the Board of Directors present, and the minutes of the previous meeting read and approved.

Winos Review International Situation

Stages Steps To Be Taken!

Like many other people, Wins are used to theblems that go with the world, and they are used to the idea of working hard to meet these problems. But they are not used to the idea of being able to control their own destiny, of being able to say what they want to do.

The workers of the world are not used to the idea of being able to control their own destiny, of being able to say what they want to do.

Fishermen “Shake-Down” Outlined; Now Uniting Against Cannery Operators

SAN DIEGO.—Fishermen here under the A.P.L. banner, as they are termed, are not only the blackmailed of forty cents per day but they are in addition to dues and assessments they are robbed of their actions by the position of having their wages taken out of their pay envelopes. Their wages are paid direct by the cannery operators to the fishermen as members of the conservancy and they are permitted to retain the amount of their dues and assessments.

The fishermen, who are unable to vote on matters that concern the purchasing of their wages, are also unable to vote on the membership of the conservancy. The conservancy is controlled by the cannery operators with no checks against their actions. The fishermen are also unable to vote on the payment of money to the conservancy.

The fishermen are now uniting against the cannery operators and are demanding that the wages they receive should be paid to them direct, as members of the conservancy, and that they should be permitted to vote on matters that concern them.
