Formula for Victory

By Dr. Earle T. Leaner

At the recent meeting of the American Association for the Advancement of Science in San Francisco, a question was asked what the formula for victory is. Dr. Leaner, a well-known physical scientist, replied that the formula for victory depends upon the nature of the victory desired. If it is a scientific victory, then the formula is simply the application of scientific principles and methods to the problem at hand. If it is a military victory, then the formula is the strategic and tactical运用 of military forces. If it is a social victory, then the formula is the application of social and economic principles to improve the condition of society. In short, the formula for victory is simply the application of the right principles and methods to the problem at hand.

Cost of Living

Our contention is simply that the cost of living of the average wage earner or the average wage earner's family has increased during the past year. We propose to demonstrate this. The first statement of the costs of living of the average wage earner or the average wage earner's family is the average wage earner's wage, a most creditable job, and a most necessary job. The average wage earner's wage is the most important job. It is the most necessary job, and it should be done. The average wage earner's wage is the most necessary job.

It is the most necessary job.

We suggest to the shipowners that they should have the average wage earner's wage increased. It is not necessary to rent the Wilmington warehouse. It is necessary to rent the Wilmington warehouse.

FIVE WEEKS OF HEARINGS FAIL TO PRODUCE ANY DEROGATORY EVIDENCE

SAN FRANCISCO — For over five weeks, more than a score of attorneys not associated with the Bridges defense have been questioning witnesses during the government's investigation of the Communist party. Last week, the defense will be asked to show just what the witnesses were able to say about the Communist party.

At the beginning of the hearings, the government had hoped to prove that Bridges was a member of the Communist party and that he had engaged in a variety of activities designed to strengthen the party. But the defense has argued that the witnesses who have been called to testify have not been able to provide any evidence to support these allegations.

Need $30,000 for Bridges Defense

After hearing the last of the witnesses, the defense will be able to present its own case, which it hopes will include evidence that will disprove the government's claims. The defense has already raised more than $30,000 in funds, but it will need even more to cover the costs of the trial.

YOU WANT ANY GOOD ADVICE, DAD?

Jesse Unruh Bridges, 14-year-old daughter of Harry Bridges, who is in court defending her father, has written a letter to her father with the following advice:

"Don't ever be afraid of the Communist party just because they say it's bad. I want you to know that I am sure they are wrong, and that you are right. I believe in you, Dad."
