SAN FRANCISCO — Big labor and management men stepped back into their offices after a week-end whirlwind.

On Monday night, the Ship Clerks' 40,000-employee H.C.A. finally presented a re- sult of their Monday-night meeting to the waterfront employers. A tentative agreement in writing was read and signed.

The agreement was worked out by the Baker-Wise Arbitrator, with the participation of representatives of the Maritime Labor Board and the Board of Theatrical Managers.

The agreement ends the year-long strike and effectively brings a solution to the dispute between the waterfront employees and the shipping companies.

“LUNDBERG MOVES AGAINST NWU IN LOST AGREEMENT”

SAN FRANCISCO—Same old story. Again, the NWU comes under attack by shipping interests. This time, however, the attack is launched by the NWU's arch-enemy, the NWU's greatest foe, the NWU's mortal enemy...

The NWU has been hit by a two-pronged attack. On the one hand, the NWU's leaders have been accused of corruption and inefficiency. On the other hand, the NWU's policies have been criticized as being too radical and unreasonable.

The NWU's leaders have denied the charges of corruption and inefficiency, and have defended their policies as being necessary to protect the rights of the workers.

But the NWU's enemies have not been satisfied with these responses. They have continued to attack the NWU, using every means at their disposal.

The NWU has been forced to defend itself, and has been successful in doing so. The NWU's leaders have been able to show that the charges of corruption and inefficiency are baseless, and that the NWU's policies are necessary and just.

The NWU has been able to show that it is theNWU's enemies who are the真正 enemies of the workers, and that the NWU is the true friend of the workers.

The NWU's enemies have been forced to admit that they are wrong, and have been forced to apologize to the NWU.

The NWU has been able to win this battle, and has emerged stronger and more powerful than ever before.

The NWU's enemies will continue to attack the NWU, but the NWU will continue to defend itself, and will continue to win.

The NWU is the voice of the workers, and it will continue to speak for the workers, and to fight for the rights of the workers.

The Mystery of the SS Bering or the case of The Phantom of the Boudoir

Once upon a time— well, not quite— in the midst of war

There was a ship, the SS Bering,

It was the pride of the Line,

But one day disaster struck,

A phantom appeared on board,

It was a mystery, quite absurd.

Some say it was a figment of the imagination,

Others say it was a real escape,

But one thing is certain,

It was a tale of excitement.

The SS Bering was sailing,

On a mission to deliver,

But one day disaster struck,

A phantom appeared on board.

Some say it was a figment of the imagination,

Others say it was a real escape,

But one thing is certain,

It was a tale of excitement.
