CIO Shipbuilding
Workers Hold Firm

Through the CIO's determination, the long-awaited strike at the shipbuilding plants in Seattle was not only averted, but a solid victory was won by the workers. The strike, which was called over the issue of job security, was avoided by the CIO's successful negotiation with the shipbuilders. The employers agreed to recognize the CIO's union and to guarantee the workers' right to organize and bargain collectively.

These Engineers Are Not Organized

Engineers working on West Coast ships jeopardized their livelihoods if they refused to sign a new agreement with the employers. However, the CIO's organizing efforts were successful, and the engineers were able to negotiate a new contract that protected their job security.

Lundeberg, Shipowners
Block Job Insurance

The unity of Harry Lundeberg and the shipowners this week temporarily blocked the unemployment insurance for which maritime unions have been battling for years.

Protests Hold Up Anti-Bridges Bill

The proposed bill to deport Harry Bridges was opposed by the CIO's delegate to the National Maritime Congress. The bill was defeated by a vote of 19-1, with the CIO's delegate being the only one to vote against it.

National Defense

By HARRY BRIDGES

Workers Unions and the National Defense

The war has brought about a new consciousness of the importance of the workers' role in the national defense. Workers are not only fighting for their own jobs, but also for the nation's survival. The CIO's leadership and the workers' solidarity are key factors in this struggle.

The CIO's Role in National Defense

The CIO has taken a leading role in the national defense effort. It has organized workers in key industries, such as shipbuilding, and has fought for better working conditions and wages. The CIO's leadership and the workers' solidarity are key factors in this struggle.

Whither Are We Bound?  

By Publicity Committee, ILWU 1-13

The situation in Europe has forced us to face up domestic affairs. The one constant is the abysmal series of these administrative big-wigs both in and out of the House of Representatives and Congress, who will profit by any and every loophole to rig the elections. We are now going through the harrowing process of watching our labor movements and reforms being plundered by the plutocratic pirates who were piling up billions in loot.

During that period the Bill of Rights was dead as a dodo, insofar as the labor movement was concerned. In the United States, the industrialists of the United States have been permitted to tarry in pastures and graze on the daily labor of the masses.

The permanent New Deal has given us the past seven years. It seems that "Of Mice and Men," Steinbeck's new novel about the American workers' struggle for survival, has been written and published just to serve as a warning sign to other labor leaders. It is shorter, less adaptation. It is shorter, less powerful than the financial and industrial interests. The danger of the crippling or the total annihilation of the National Labor Show is like a question mark written under the sign, "Out of Business." If the workers of the world had protested and taken such action, we would have been done before. We may be able to prevent this from happening in Congress.

Publicity committee, ILWU 1-10 Bulletin.

Coffee Time

By VIC JOHNSON

I was never a real coffee time person. I always thought it was a waste of time. But then I discovered the benefits of coffee time.

Coffee time is a great way to recharge your batteries. It's like a mini-energy boost to get you through the day. And who doesn't need that every now and then?

But not everyone enjoys coffee. Some people prefer tea, hot chocolate, or even plain water. It all comes down to personal preference.

So next time you're feeling a little sluggish, consider taking a coffee time break. You might be surprised at how refreshing it feels.

The 'Fifth Column'

What They Mean Are The Anti-War Forces

Editor, "Voice of the Federation" -

It is now the practice of many of the newspapers and magazines today for pro-war elements, from the capitalist press, to say that the "settlement" of the "United States" is the same as the settlement of the "United States." And T. B. You are called a "Trojan Horse." So are any number of people. I was a "Trojan Horse" in France, but supposin' you do, now I'm warning you. Your names should go down with the pirates of old. They sneaks in at night, and long before dawn, she is on her way to the prison. She sneaks in at night, and long before dawn, she is on her way to the prison. She sneaks in at night, and long before dawn, she is on her way to the prison.

The same spirit is being engendered by some patriotically inflamed business men. They are the "fifth columnists," ready to sell their class to the munition makers. And the words "fifth column" have been used by Wall Street, and the standards by which the great managements of Wall Street are judged are the same as those of the "fifth columnists." So is the "fifth column" in France, with the "Trojan Horse" the "fifth column." A. Kimball  2135  1.00

But supposin' you do, now I'm warning you. Your names should go down with the pirates of old. They sneaks in at night, and long before dawn, she is on her way to the prison. Protests Make Anti-Bridges Solons Waver

Seattle-Northwest Section

Censored! He’s Barred From Air!

Phoebe A. A. Anderson will again address the Pacific Northwest National Union of the Marine Cooks and Stewards Union of America, AFL, at its biennial convention in Portland, Ore., this week, despite an attempt by Fred B. Bridges, Seattle, to keep her from doing so. The attempt involved a threat of legal action.

Council Okhes MFP Stand

Seattle—Washington District Council No. 1 of the MFP adopted a resolution outlawing its members from supporting the war effort against the Axis powers.

The letter demanding war labor bills from war and victory unions was circulated amongst members of the maritime unions.

It asserted that America’s war is being fought upon the seas for freedom and that anti-warism is the equivalent of treason.

Youth Needs Hearing Meets Big Response

Seattle—The public Youth Needs Hearing to discuss the problems of war job training and youth unemployment was held in the Roxy Theatre yesterday.

An estimated 350 persons attended the hearing.

The purpose of the meeting was to enable the hearing to get a factual survey of the problems of the youth of the city.

It was decided to ask all boys and girls who have been made idle by the war to come forward and tell their story.

The meeting was held in cooperation with the Junior Employment and Counseling Service of the U. S. Employment Service.

The meeting was conducted by S. A. D.Supported by Robert F. lunson, who is in charge of the training of the hearing.

The hearing will continue Thursday night at 8 p.m.

Wage Increases Approved

Workers in the Seattle area have won a victory. The Marine Firemen’s Union No. 33, in an effort to increase the wage of its members, asked for a raise in the wages paid for the service of the industrial union. The union’s wage rate is 30 cents per hour.

The union was successful in its efforts and the wage rate was increased to 35 cents per hour.

The increase in the wage rate is effective immediately.

The Marine Firemen’s Union No. 33 is affiliated with the American Federation of Labor and Congress of Industrial Organizations.

Wage War Hits一步

The MFP Council this week supported the war effort against the Axis powers by adopting the recommendations of the Maritime Board of Trade.

The council telegraphed to the Maritime Board of Trade urging the immediate passage of the resolution.

The resolution was adopted by the council.

The MFP Council was instrumental in the war effort against the Axis powers.

The council’s support is expected to be welcomed by the war effort.

The council is composed of the following:

Frank E. Worsham, chairman

Fred L. Hone, secretary

John A. Gordon, treasurer

The council’s support is expected to be welcomed by the war effort.

14 Seamen Plead 'Not Guilty' in N. Y.

**BULLETIN**

Late Friday in a wire from New York City, Cun- tran, President of the NMUL, and the SU's 14 ship crews had still to mail ball of 14 members of the Ewa crew. Cun tran stated that the NMUL would act immediately to have the July 17 sighting in New York of the Iowan of the Iowan, had been instructed to post ball for all ships. The Ewa crew, however, did not act, and the NMUL would have taken the next possible step.

The 14 seamen, members of the crew of the Mat son Mauawili, were arraigned in Federal Court yesterday on charges of violating the National Labor Relations Act.

The charges are based on an incident which occurred during a trip to Central America.

**SS Mauawili**

The crew of the Iowan complained about working conditions and were given notice of their right to file a complaint under the National Labor Relations Act.

The crew has also advised the NMUL that they will not act if the NMUL does not take action.

**San Anselmo**

The San Anselmo's crew has also complained about working conditions and are awaiting a decision from the NMUL.

**Perkins Says:**

To Whom It May Concern:

The "West Coast Sailors" article has made a number of statements that we think should be clarified. For example, we believe that the charges brought against us were not presented to us in writing.

Sincerely,

FLOYD E. PERKINS.
