Harry Lundeberg's Name on Official Publicity

While labor leaders all over the nation condemn the Burke-Wadsworth Conspiration Bill as un-American, Harry Lundeberg's name appears as a sponsor of compromise on official Military Training Camps Association publicity. For verification note San Francisco Chronicle story.

Boeing Strike Deadline

Company Stalls Negotiations

Port Hueneme Must Be Manned by ILWU

LATE BULLETIN

SEATTLE—Midnight tonight, Aug. 10, is the end of the 10-day truce agreed to by Boeing Aircraft Company's strike committee and union representatives. Last night, Boeing's strike committee, after reaching a critical point in negotiations with the ILWU, informed union representatives that the strike would be resumed unless a new agreement was reached in time to prevent the expiration of the truce.

The strike, which began July 31, is now in its 22nd day. The company's demands include a $31,000,000 strike fund, a $15 weekly guarantee, and the establishment of a hiring hall. The unions are demanding a $4.50 per hour minimum wage, an end to the hiring of unskilled workers, and the recognition of the Local 1-35 union.

A meeting between the two sides was scheduled for today to discuss the possibility of extending the truce.

Fittskrieg' Against Labor

DA, Seeking Re-election, Sees Plots Everywhere

LOS ANGELES—All labor in this city was mobilizing yesterday to fight District Attorney John E. Pfizer's attempt to disrupt the strike at Boeing Aircraft Company. Pfizer, who is seeking re-election, has arrested four Boeing workers and charged them with conspiracy to commit a crime.

Pfizer's action comes as a direct result of his recent decision to pursue the labor-management conflict in a court of law. The Workers' Union, which represents Boeing employees, has called for a general strike in protest against Pfizer's move.

The Workers' Union is demanding that Pfizer release the four workers and drop all charges. In addition, the union is calling for a boycott of all products made by Boeing Aircraft Company until the labor-management dispute is resolved.

Pat Sullivan Arrest

What happens to unions and their best leaders under war conditions? By war conditions we mean conditions by which the war economy controls all the activities of the American people. Pat Sullivan, militant rank and file head of the Canadian Seamen’s Union. Sullivan’s only crime—like that of Harry Bridges—was to be an American worker whose efforts were directed to the defense of his country. The situation in which Sullivan is now being held is Unfortunately, the only way in which Sullivan can be held accountable for the “national defense.”

Pat Sullivan is being held under the War Measure Act with no specific right of a trial—all in the name of national defense. The only trouble with this is that the Conscientious Bill is not up there in the courts. It just is being used to scare the men into working overtime and into giving up their rights. The situation is that the militant workers are being used by the government to further the interests of big business. The government is not interested in the defense of the country but in the defense of the big companies. The government is not interested in the workers but in the workers for the workers.

The President Says

By A. E. HARDING

The only trouble with this is that the Conscientious Bill is not up there in the courts. It just is being used to scare the men into working overtime and into giving up their rights. The situation is that the militant workers are being used by the government to further the interests of big business. The government is not interested in the defense of the country but in the defense of the big companies. The government is not interested in the workers but in the workers for the workers.

CIO Raps Storm Trop” Bill

WASHINGTON—With the passage of the Selective Service Bill—a bill that is a maximum of speed and a minimum of purpose—a committee on military defense has been created by the Senate. The committee is considering the establishment of a national defense system. The storm troopers armed by the national government are being kept under command of private employers. Workers are being used by the government to further the interests of big business. The government is not interested in the defense of the country but in the defense of the big companies. The government is not interested in the workers but in the workers for the workers.

A few details from Press reports:

Labor Day Parade

Propositions are being made for a strike parade in history this year. The employers are uniting with their employers, industrial union councils. A strike around the country is expected any day. The employers and government officials are expected to make the most suffering as they have for the past few years.

On To Chicago!

The first ship to answer the call of Labor was the Great Lakes steamer "Byron." Last week she arrived at Chicago August 28, in eventful company, the "Golden Bear" and the "Lackawanna." The ship answered the appeal of the Chicago Federation of Labor and was also welcomed by the executive council of the AFL as a token of cooperation from the international. The trip was planned, and the money thus raised, for the benefit of the unemployed. On board the Golden Bear was Mr. Harry Bridges and other representatives of the ILWU.

Recall Ballot Vote Unanimous

In one of the largest headquarters meetings in months—with three large passenger vessels off the harbor and an honor guard from the Salvation Army, Executive Secretary of the Communist Party of California. After much debate on these documents, as to their validity, it was decided that a committee of six be elected.

The report was backed up by the opinion of George A. Weber, nationally known handwriting expert.

In writing the firemen to be vigilant and not permit their internal unity to be disrupted by these moves.

Brothers: On Thursday, August 1st, the Secretary, Brother Malone, submitted the membership for their information, two photocopies of letters bearing the letters of W. Schneiderman, Executive Secretary of the Communist Party of California, and the letters of the Communist Party. After much debate on these documents, as to their validity, it was decided that a committee of six be elected.

The signatures were taken up by the Secretary. Brother Murphy, Executive Secretary.

Following the report of the committee and the recommendation to have the actual signatures in their original form presented to the committee for comparison by a handwriting expert, Brother O'Brien was appointed to present the original signatures to the expert.

The motion was carried. The report of the committee was approved.

King-Ramsay-Conner News

The SS Lurline crew, always quick to aid in the fight for King-Ramsay, was on hand on Friday with an excellent suggestion for furthering the overtime work. The Lurline has a camera aboard the ship and in discussing the picture with the King-Ramsay-Conner, the latterresidents of that club, commented favorably on the picture. The King-Ramsay-Conner is currently trying to increase the number of cameras on board ships to assist in the protection of seamen.

In other words, the working people of New Zealand are bound to King-Ramsay-Conner. Mr. King-Ramsay-Conner, chairman of the board of directors, has sent representatives to an office in London. Membership at said hall.

The membership of the club has been announced. The committee feels that we have been able to increase the number of members.

Here’s What War Will Mean to You!

If you want a good idea what war would mean to your pocketbook, even if you are lucky enough not to be drafted, take a look at this chart. It was compiled by the American Seafarers Union.

| Item | Cost
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Food</td>
<td>$0.70 a year in INCOME TAX</td>
</tr>
<tr>
<td>Housing</td>
<td>$500 a year in INCOME TAX</td>
</tr>
<tr>
<td>Transportation</td>
<td>$500 a year in INCOME TAX</td>
</tr>
<tr>
<td>Clothing</td>
<td>$500 a year in INCOME TAX</td>
</tr>
</tbody>
</table>

And you would pay a TEN PER CENT sales tax on all your purchases. Just figure that out, and you will see how much the war will cost you.

In addition, you would pay the usual long list of HIDDEN TAXES. The income tax in New Zealand starts with the ordinary income tax, and where does all this money go? The answer is that the little country of New Zealand $45,000,000 will be got out of the workers and pay the war. The New Zealand government will spend $500 for organizations in New Zealand and $70,000,000 for the war. In other words, the working people of New Zealand are bound to King-Ramsay-Conner. Mr. King-Ramsay-Conner, chairman of the board of directors, has sent representatives to an office in London. Membership at said hall.

And with an example like this, no wonder American workers say: “The war is not coming.”

Lambert Program Has Some Rodent Trouble

If the McCormick Stabilizer has a rodent problem, cave in to the rodents. The Lambert Program has been plagued by rodents in recent months. The Lambert Program is scheduled to send representatives to an office in London. Membership at said hall.

The committee feels that we have been able to increase the number of members.

S S Hollywood Has Some Rodent Trouble

If the McCormick Stabilizer has a rodent problem, cave in to the rodents. The Lambert Program has been plagued by rodents in recent months. The Lambert Program is scheduled to send representatives to an office in London. Membership at said hall.

The committee feels that we have been able to increase the number of members.

San Pedro NMU Report

San Pedro--The situation in the San Pedro harbor has improved high regard for the efficiency and professional ability of our members. The work that they have done has been appreciated. They have done a splendid job.

As this better situation develops, the San Pedro chapter of the NMU will be in charge of the affairs of the San Pedro chapter of the NMU. The committee feels that we have been able to increase the number of members.
