SF."—The following resolution, which exposes those who support the shipwrights of the Pacific Coast Longshoremen, has been unanimously adopted by Local 1-19, longshore base here at the International Longshoremen’s and Warehousemen’s Union.

WHEREAS: The shipwrights at 10A in conjunction with Joes and Joe’s (Hale & Baker) at time attempted a separate agreement on terms we were defeated by the ship owners. At the height of French preparations for a new longshore contract, shipowners have attempted to scuttle CIO negotiations by the National Labor Relations Board and the United States Supreme Court.

Tacoma ILA as “fifth columnists” in labor’s ranks, was unanimously endorsed by a voice vote—not even a standup vote. The action was taken only on the recommendation of the contract, safety rules, penalty agreement, and our overall position on shipping and the government.

Recommendation was made by the National Labor Relations Board and the United States Supreme Court.

RESOLVED: That we, the San Francisco local of ILWU, recognize and understand completely what the Pacific Coast Longshoremen are as the party of the Pacific Coast Longshoremen. ILWU recognizes that it would be in the best interest of the ILWU members to support the resolution in whatever way we can.

Economic Effects of "Defense" Program
Do Not Mean Employment

By Labeo Non-Partisan League
WASHINGTON—Critics of the "defense" program and its concomitant taxation thereon there is a nationalistic atmosphere held to be the defense program's programs will take the major portion of this country's employment, unemployment, and underemployment out of the country.

Much of the discussion has centered around the idea that the "defense" program will take the major portion of this country's employment, unemployment, and underemployment out of the country.

It has been argued that the "defense" program will take the major portion of this country's employment, unemployment, and underemployment out of the country.

One only needs to turn to the two major nationalistic programs to see the results of this argument. The "defense" program has taken the major portion of this country's employment, unemployment, and underemployment out of the country.

In the case of the "defense" program, the major portion of this country's employment, unemployment, and underemployment has been taken out of the country. The major portion of this country's employment, unemployment, and underemployment has been taken out of the country.

The only question is whether the "defense" program is the major portion of this country's employment, unemployment, and underemployment. The "defense" program is not the major portion of this country's employment, unemployment, and underemployment.

The "defense" program is only one of the major programs which have taken the major portion of this country's employment, unemployment, and underemployment out of the country.

The major portion of this country's employment, unemployment, and underemployment has been taken out of the country by other major programs, such as the "war" program and the "nationalization" program.

It is important to recognize that the "defense" program is not the major portion of this country's employment, unemployment, and underemployment.

One cannot say that the "defense" program is the major portion of this country's employment, unemployment, and underemployment. The "defense" program is only one of the major programs which have taken the major portion of this country's employment, unemployment, and underemployment out of the country.
