Thousands Support Defense

SAN FRANCISCO—Thousands of volunteer IWW Defense Committees converged on the city today to demand the release of Harry Bridges from federal custody. The Defense Committees, numbering about 200, attended the rally held in front of the federal building at the foot of Market Street.

A prominent speaker at the meeting was Dr. George Wilson, president of the San Francisco Industrial Union and organizer of the IWW Defense Committee. He said that Bridges had committed no crime and should be released immediately.

"I am a member of the Defense Committee," said Wilson. "And I am here to demand the release of Harry Bridges from federal custody. Bridges is not guilty of any crime and should be released immediately."

Wilson went on to say that Bridges had been wrongfully accused and unjustly imprisoned. He called on the federal authorities to release Bridges immediately.

The rally was attended by more than 2,000 people, including many members of the IWW and other labor union organizations. The participants chanted slogans and held signs calling for the release of Bridges.

After the meeting, the Defense Committees marched through the streets of San Francisco, carrying signs and banners. The march continued for several miles, with hundreds of participants.

The march ended at the federal building, where the participants delivered a petition demanding the release of Bridges. The petition was signed by more than 5,000 people, including many prominent labor leaders.

The Defense Committees plan to continue their efforts to secure the release of Bridges. They have already staged several protests and rallies in support of his release.

Casey Jones Deportable

SAN FRANCISCO—Casey Jones, the famous railroad worker, has been ordered deported to his native country. Jones, a member of the IWW, had been involved in a series of labor disputes over the years.

"We have received a deportation order against Casey Jones," said a spokesman for the federal government. "He is a danger to the public and must be removed from the United States."

Jones had been a member of the IWW for many years and had been involved in numerous labor disputes. He had been arrested several times over the years for his activities.

The deportation order was signed by Attorney General Herbert Hoover, who said that Jones was a threat to national security.

"Casey Jones has been involved in many illegal activities," said Hoover. "He is a danger to the public and must be removed from the United States."

Jones has been given 30 days to leave the country. He is expected to leave the country voluntarily.

FBI Frame-Up on Bridges

Anti-Labor Activities Of FBI Brought to Light

SAN FRANCISCO—As the dominant power played by the FBI, it is evident that the FBI is in the business of suppressing all forms of labor. This conclusion is based on the FBI's activities in recent years.

The FBI has been accused of conducting a campaign of illegal activity against theIWW. This campaign has included wiretapping, search and seizure, and other forms of intimidation.

A recent survey by the Bridges International Longshoremen's and Warehousemen's Union revealed that the FBI has been involved in the harassment of union members.

The FBI's actions have been condemned by labor leaders, who have called for an end to the campaign of repression.

Answers Accusers

Defend Longshore Leader

John L. Lewis, head of the United Mine Workers, has been summoned to appear before a federal grand jury in Washington, D.C.

Lewis is being investigated in connection with charges of mail fraud and tax evasion.

A spokesman for the Lewis' defense committee said that the charges were "false and baseless." He said that Lewis had always been a dedicated union leader.

The defense committee also said that Lewis was a victim of political repression and that his activities were protected by the First Amendment.

Prosecution Charges

LaFollette 'Red'

SAN FRANCISCO—United States Senator Robert LaFollette, president of the IWW, has been arrested and charged with making illegal contributions to the party.

LaFollette was arrested in connection with charges of illegally funneling money to the party's presidential campaign.

The charges were announced today by Attorney General Herbert Hoover, who said that LaFollette had been involved in a "widespread conspiracy of illegal contributions."

Labor Fights Vinson Bill

WASHINGTON, D.C.—One of the most serious threats to the labor movement, a bill now before Congress, was revealed by William J. Hinch, CIO's Assistant General Counsel, today.

The measure, called the 1941 Labor-Management Relations Bill, would have far-reaching effects on the labor movement, according to Hinch.

Hinch said the bill would have the following effects:

1. It would prevent the formation of new unions and would make it difficult for existing unions to organize.

2. It would give employers the right to demand that workers sign agreements not to strike.

3. It would give employers the right to demand that workers sign agreements not to join unions.

4. It would give employers the right to demand that workers sign agreements not to work for competitors.

5. It would give employers the right to demand that workers sign agreements not to work for the government.

6. It would give employers the right to demand that workers sign agreements not to work for any labor organization.

Hinch said the bill was the result of a campaign by the National Right to Work Committee and the Committee for Industrial Organization, two organizations that are known to be anti-union.

Hinch said the bill was a direct threat to the labor movement and would make it impossible for workers to organize and to make gains for themselves.

Webster-Smalliman Case Verdict Set Aside!

LOS ANGELES.—Judge Ambrose will hear the motion on May 6 to dismiss the charges against Brit Webster and Claude Smallman and to throw the case out of court.

In setting aside the guilty verdicts, it was not because there was no evidence of the defendants being guilty of the crimes charged, but rather because the evidence did not meet the standards set by the law of the land.

The state's case was not strong enough to support a conviction, and thus the charges were dismissed.

The case was a significant victory for the defendants, who had been charged with murder.

It's Tough, But the World Goes On

The ENSIGN use of conveyors by the administration in the national defense program should start, thinking and thinking, and thinking. They mean "aid to the defense," and are to be expected to last and last and last... From conveyors on is one big step into war for the entire defense program, and must be brought up and over, and we must ask ourselves what work will have to be done then.

Well, the time for doing something about these things that have been nagging at our organization and our membership for the year is here. It is time to take action and do something about the things that will come to the people of the United States as the result of our inaction.

The national organization has the responsibility of making sure that the people of the United States are protected from dangerous and destructive forces. It is time to take action and do something about the things that will come to the people of the United States as the result of our inaction.

SAN FRANCISCO—FBI agents imported Harry Bridges, organizer of the International Longshoremen and Warehousemen's Union, on Friday night and tried to get him to confess on tape that he had made a speech in Marysville, Calif., criticizing the U.S. government's anti-Communist activities.
