Gains for CIO

In Los Angeles

LOS ANGELES—After a full participation in the Los Angeles municipal election, battles against anti-labor legislation, and the recruitment of 2,000 more workers, and accomplishment of higher wages, labor gains were reported last week in the San Pedro area by the CIO office of the American Federation of Labor.

In the drive to gain the support of employers, the CIO represented the demands of workers for higher wages and better working conditions. In the meetings with management, the CIO insisted on the right of the workers to participate in the decision-making process of the company.

The drive was a success, with many employers agreeing to the demands of the workers. The CIO office reported that the workers were satisfied with the results of the drive.

Blasts Those Whose Business It Is To 'Chloroform' Labor

HARRISBURG, Pa.—A strong assur-
ing of the nation's labor leaders was made by John L. Lewis last week, speaking at the annual meeting of the Congress of Industrial Organizations. He accused certain leaders of trying to "chloroform" the labor movement by "milieu" and war. His speech, published in the April 19 issue of the VOICE OF THE FEDERATION, a newsletter of the CIO, has caused a stir in labor circles.

Lewis's accusations are directed against the National Maritime Federation of the Pacific, which he says has been trying to "chloroform" the labor movement by "milieu" and war. He charges that the federation, which represents seamen, is trying to "chloroform" the movement by "milieu" and war.

MFOW Brother Urges Full Support to NMU Convention

Editor of the VOICE:

In looking back to 1936 when I commenced going to sea I’ve observed the rise of the NMU Convention. In the early stages of the union’s growth, workers were motivated by a strong desire to secure better wages and working conditions. The NMU Convention played a crucial role in unifying workers, allowing them to negotiate as a collective entity and advocating for their rights. The convention was instrumental in establishing the NMU as a powerful force in the maritime industry.

San Pedro, CA

Quinn Still Trying To Be a Dictator

Editor of the VOICE:

Penning the San Pedro, the MFOW minced no words in its critique of the agent’s efforts to maintain control. The agents’ actions were seen as an attempt to undermine the democratic process and perpetuate an outdated system of authority.

San Francisco

Applying the recent developments in labor relations, the editors of the VOICE continue to support the NMU in its ongoing efforts to improve the lives of seafarers. The convention, a testament to collective action, demonstrates the power of unity and the importance of fighting for workers’ rights.
