San Francisco Shipyard Strike Solid Against Attacks

More Frame-up Details Revealed

San Francisco — Important developments in the bound Bridges deportation hearing this week included:

1. Submission of prosecution witness stories against Bridges at the hearing.
2. Evidence that Bridges was in possession of a false passport.
3. Testimony that Bridges had been arrested in 1939 and 1941.

The prosecution presented evidence of Bridges' involvement in illegal activities, including his reported membership in the Communist Party. The defense, on the other hand, highlighted Bridges' commitment to the labor movement and his role as an advocate for workers' rights.

Shipyard Strike Holds Tight

San Francisco—The shipyard strike, which began last month, continues to hold tight as the workers fight for better wages and working conditions. The strike, which affects thousands of workers at the shipyards along the San Francisco Bay, has lasted for several weeks and shows no signs of abating.

The San Francisco Maritime Federation, which represents the workers, has called for a continuation of the strike until the demands of the workers are met. The federation has warned that any attempt to break the strike will be met with a strong workers' response.

The strike has caused disruptions in the shipbuilding industry, with some shipyards operating at a reduced capacity. However, the workers remain determined to fight for their rights and are prepared to continue the strike for as long as necessary.
SAN FRANCISCO.—A special meeting of warehouse local 2 of the International Longshoremen's & Warehousemen's Union here was held this week— Friday, May 16— to consider a strike vote in bay area warehouses.

The vote was taken by two separate groups, the first made up of the warehouse local members and the second of the members of the execu tive council of the AFL warehouse council. The vote was approximately 4,500.

The executive council of the AFL warehouse council has been authorized to call a strike, effective as of date. The council will be notified of the results of the voting in the warehouse local and the executive council of the AFL warehouse council will meet immediately to consider the matter.

More Royalists

AN ARBOR, Mich. — Although President Roosevelt has been called "a royalist" by Royal Labor, the recent trend of the Royal Labor movement is towards the adoption of progressive labor policies.

The Royal Labor movement has been divided into two branches, the Royal Labor Union and the Royal Labor Cooperative Union. The Royal Labor Union has been active in the labor movement for many years, and has been granted recognition by the AFL as a national labor organization.

The Royal Labor Cooperative Union was established recently to promote the adoption of progressive labor policies. The union has been granted recognition by the AFL as a national labor organization, and is active in the labor movement.

No More Workers

SAN FRANCISCO.—The workers in the San Francisco warehouse local have voted unanimously to return to work.

The workers voted by a large majority to return to work in order to prevent a strike. The vote was taken by a secret ballot, and was approved by the executive council of the warehouse local.

**Union Label Fair Shows CIO Gains**

**LOS ANGELES**—The tremendous advance of the CIO in the West continued this week, the syndicalists announcing that the prize drive being conducted this week in the second annual union label fair, in behalf of the AFL's International Industrial Union and the Women's Auxiliary Council.

**Last week** the CIO announced a significant gain in the drive to get stores to carry labels bearing the union logo. On October 23, President John L. Lewis ordered all CIO unions to organize a drive to stamp out the use of non-union labels and to get union labels on all goods on which they have been necessary.

**In the West** the drive has been more successful. This week, the CIO announced that the Lyons Market in San Pedro will be the first in the West to carry union labels. The Lyons Market, which is a part of the S. F. Warehouse Boost, Boost Wages

**SAN PEDRO**—Wages of $4.00 per hour are being paid at the S. F. Warehouse Boost in San Pedro. The Boost was organized three years ago and now has over 1,500 members.

**Support for CIO Tax Plan Urged**

**SEATTLE**—A proposed tax program of the treasury department is being supported by the CIO, which has called for a tax on the whole of American business.

**The council meeting recessed** until Saturday, May 17, 1941.

100% Support for the Bay Area Shipyard Strike

The strike of CIO and AFL Machinists in the San Francisco area is a battle for the maintenance of labor's rights. The employers, who have always been against the union, are now trying to force workers to accept a wage cut. This is a hard thing to explain, but the workers are standing firm. The strike is supported by the CIO and AFL, and also by many other organizations.

Write a Letter NOW Against the Vinson Bill

PROTESTS against the Vinson bill, HR 4139, should be send to congressmen and other Washington D. C. politicians. This bill, which is designed to weaken labor's position, is being debated in Congress. A letter to your congressman can make a difference. The following letter can be used as a model:

Dear [Congressman's Name],

I am writing to express my strong opposition to the Vinson bill, HR 4139. This bill, if passed, would weaken labor's position and undermine the gains made through collective bargaining. I urge you to vote against this bill and support labor's rights.

Sincerely,
[Your Name]

HOWZ SHPUPPIN?

SAN FRANCISCO—Thursday morning, two firemen and a combination fireman and oiler went to the General Strike, Monday, at the Central Labor Council for the purpose of supporting their strikers. The resolution adopted at the meeting read that the AFL has made no effort to mediate in the strike, and that the strikers have made it clear that they are determined to continue the strike until the AFL agrees to recognize the strikers as a legitimate organization.

A resolution was also adopted expressing the belief that the AFL is being used by high command as a front for the capitalist system to keep the workers in their place. The resolution also expressed the belief that the AFL is not interested in the welfare of the workers, but is only interested in keeping the workers in slavery.

The resolution concludes by saying that the workers will not give up their struggle until the AFL recognizes the strikers as a legitimate organization.
